AI 11.0 ADJOURNMENT

EXPULSION UPDATE

WHERE ARE WE NOW?

DR. ROCHELLE CLARK, SUPERINTENDENT
BOARD OF EDUCATION MEETING
JUNE 10, 2025

2023 – 2024 SY VS 2024 – 2025 SY

- As you know, the district took a strong look at the aggressive behaviors shown by students over the last few years. We have had mob action, gang-like activities, multiple fights taking place at one time in our buildings, and even parents on our property participating in fights.
- During these situations, students and staff were injured, buildings went on a soft lock-down, security from other buildings were called to help maintain order, and we had additional police presence that led to NTAs. This is unacceptable!

STUDENT CODE OF CONDUCT AND PARENT HANDBOOK

Adopted by the
Board of Education
in 1999 and
revised each year
to reflect current
District and legal
changes.

Parent Responsibility - To read, understand, and reiterate the Student Code of Conduct to their school age children. **Parents Rights** - To have their children educated in a **safe and orderly environment**.

Student Responsibility - To understand and follow the Student Code of Conduct. **Students Rights** - To attend school in a **safe and orderly environment**.

Staff Responsibility - Follow proper procedures in terms of infractions and consequences as outlined in the Student Code of Conduct. **Staff Rights** - To work in a **safe and orderly environment**.

Administration Responsibility - To enforce the Student Code of Conduct with fidelity and consistency. **Administration Rights** - To initiate building rules, regulations, and procedures as needed to establish and maintain a **safe and orderly environment** in which appropriate learning and teaching conditions prevail.

Administration

- Met with staff
- Met with students
- Provided videos for students explaining expectations and possible consequences
- Sent robo calls home requesting assistance from families, explaining expectations, and possible consequences.

THE POWER OF CONSISTENCY

LEVEL 4 INFRACTIONS = LEVEL 4 CONSEQUENCES

Climate & Culture Changes

Students stated

- I'm not getting expelled
- I'm not getting involved
- I'm going to class
- I'm minding my own business

Staff stated

- They felt more safe
- They were glad we finally did something as staff were being injured
- They could see the change in the hallways

2023 –2024 SY (April)	2024 – 2025 SY (April)	Decrease
39 Expulsions	22 Expulsions	44%
13 Aggressive acts	7 Aggressive acts	46%
2,739 District Physical Alt.	2,161 District Physical Alt	21%
8,699 District Suspensions	7,326 District Suspensions	16%

End of the 23-24 SY	End of the 24-25 SY	Decrease
42 Expulsions	22 Expulsions + 1 pending	48%

Are we where we want to be currently? NO. Are we getting there? YES! Discipline is needed in our schools if we are going to keep students/staff safe and provide a conducive learning environment. It is about teaching self-control, expectations, and obeying rules. The same things we are teaching now, they will need to know as adults to be successful.

LEARNING IS IMPORTANT TO DPS

- Of the 22 expulsions this year, 13 have taken advantage of Life Vest. Life Vest is an application for Acellus Academy which is an online learning partner. It is funded through private donors and fully pays for the education of our expelled students that are not serviced by DPS.
- Acellus is based in Missouri and is regionally accredited by the Accrediting Commission for Schools.
- Through Acellus, concepts are taught, and students are assessed to determine mastery. Acellus is available 24/7 so students don't have a traditional start/end time.
- Annual Option- \$790 per year
- Cost is \$249/mo \$79/mo with scholarship

- Students must maintain good attendance, have an initial session with Cartwheel, and families/students must attend a weekly online mentoring session to receive the scholarship.
- Students can do Acellus from home or other locations like OKO.
- This has been made available to all students that were expelled w/o a stay for DPS services.

NEXT STEPS

- Continue Cartwheel Services
- More imbedded interventions at the building level
- More community/parent involvement in our schools
- Continue to work with building administrators
- Provide literature to families regarding community resources more frequently
- Continue to monitor discipline in our schools
- Everyone must speak the same language
- Non-traditional Alternative Placements
- Market DPS students/staff
- Consistency

THANK YOU

QUESTIONS

STUDENTS

7:160 Student Appearance

Students who disrupt the educational process or compromise standards of health and safety must modify their appearance. Procedures for guiding student appearance will be developed by the Superintendent or designee and included in the *Student Handbook(s)*.

Students that come to school that smell like marijuana or other offensive, distracting, and/or noxious odors will be instructed to call home for a change in clothing or picked up from school so he/she could change clothes.

STUDENTS

7:190 Student Behavior

The goals and objectives of this policy are to provide effective discipline practices that: (1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the cause of a student's misbehavior and provide opportunities for all individuals involved in an incident to participate in its resolution; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

When and Where Conduct Rules Apply

A student is subject to disciplinary action for engaging in prohibited student conduct, as described in the section with that name below, whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds, at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school, a school activity, function, or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including, but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

Prohibited Student Conduct

The school administration is authorized to discipline students for defiance, disruptive behaviors, or misconduct, including but not limited to the sub-headings outlined below. Disobeying rules of student conduct or directives from staff members or school officials include, but is not limited to, refusing a District staff member's request to stop, present school identification, or report to the office.

Possession

For purposes of this policy, the term possession includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident.

The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Illegal Substance

1. Using, possessing, distributing, purchasing, or selling tobacco or nicotine materials, including without limitation, electronic cigarettes and/or vapes.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing, selling, or offering for sale:
 - a. Any illegal drug or controlled substance, or cannabis (including marijuana, hashish, and medical cannabis unless the student is authorized to be administered a medical cannabis infused product under Ashley's Law).
 - b. Any anabolic steroid unless it is being administered in accordance with a physician's or licensed practitioner's prescription.
 - c. Any performance-enhancing substance on the Illinois High School Association's most current banned substance list unless administered in accordance with a physician's or licensed practitioner's prescription.
 - d. Any prescription drug when not prescribed for the student by a physician or licensed practitioner, or when used in a manner inconsistent with the prescription or prescribing physician's or licensed practitioner's instructions. The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited unless the student is authorized to be administered a medical cannabis infused product under Ashley's Law.
 - e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
 - f. Any substance inhaled, injected, smoked, consumed, or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in tablet or powdered form.
 - g. Look-alike or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance, or other substance that is prohibited by this policy.

- h. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.
- i. **Students that come to school that smell like marijuana or other offensive, distracting, and/or noxious odors will be instructed to call home for a change in clothing or picked up from school so he/she could change clothes.**

****** Students that use medicinal marijuana will need a medical plan on file with the nurse.**

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school may be expelled for a period not to exceed two calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code ([18 U.S.C. § 921](#)), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act ([430 ILCS 65/](#)), or firearm as defined in Section 24-1 of the Criminal Code of 1961 ([720 ILCS 5/24-1](#)).
2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy-club, or any other object if used or attempted to be used to cause bodily harm, including look-alikes of any firearm as defined above.
3. Using, possessing, controlling, or transferring a weapon as that term is defined in the Weapons section of this policy, or violating the Weapons section of this policy.
4. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.

Electronic Devices

The district strongly encourages families to keep their student's cell phone and other electronic devices at home as the district/staff will not be held responsible for items left, lost, stolen, or damaged.

Using a cellular telephone, video recording device, personal digital assistant (PDA), paging device(s), smart watch(es), headphones, earbuds, or other electronic device(s) in the classroom, hallways, lunch periods (PreK-12th grades), or other school environment(s), including school related activities, are prohibited. Electronic devices, headphone, earbuds, smart watches, etc., must be turned off and remain in their lockers or in a secure designated cell phone location in the classroom during the school day.

Prohibited technology conduct includes, without limitation, handling, utilizing, creating, sending, sharing, viewing, receiving, posting, or possessing a prohibited electronic device, an indecent visual depiction of oneself or another person through the use of any electronic device,

and/or any electronic device that disrupts the educational environment or leads to the disruption of the educational environment.

All electronic devices not provided by school staff, must be kept powered-off and placed in the student's locker or a secure, designated location in the teacher's classroom (PreK-8th grade) during the school day.

Students in grades 9-12 must keep their cell phones turned off and in their individual lockers. Staff is not responsible for cell phones that are left, lost, damaged, or stolen while at school. Students that refuse to obey this policy and/or guidelines set for cell phone usage and/or other technology violations may receive the following school discipline.

- 1st offense - Warning – Parent/guardian contacted and student must put device away in the designated area. Student may pick the device up at the end of the day.
- 2nd offense – Parent/guardian contacted. Written Warning/Classroom referral. Student must put device away in the designated area. Student may pick the device up at the end of the day.
- 3rd offense – Discipline referral to the office. Parent/guardian contacted. Student must put device away in the designated area. Parent may pick the device up at the end of the day.
- 4th offense and beyond – Student will be disciplined according to the Student Code of Conduct.

Students that become grossly defiant, threaten staff, disruptive, etc., may be suspended for up to 3 days regardless of it being the first or fourth offense. Students will be allowed to make up missed work. Students will not be allowed on school property while suspended.

Parent/guardian(s) that become belligerent, threaten staff, etc., may be arrested and/or given a No Trespass Letter. A no trespass letter means the individual is not allowed on any DPS property for the length of the time stated in the letter.

Academic Dishonesty

Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards, and wrongfully obtaining test copies or scores.

Hazing

1. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.
2. Being involved with any public-school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.

Sexual Misconduct

1. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning), and sexual assault. This does not include the non-disruptive: (a) expression of gender or sexual orientation or preference, or (b) display of affection during non-instructional time.
2. Teen dating violence, as described in Board policy 7:185, Teen Dating Violence Prohibited.

Vandalism/Theft

1. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's personal property.
2. Entering school property or a school facility without proper authorization.

False Alarms

In the absence of a reasonable belief that an emergency exists, calling emergency responders (such as calling 911); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.

Threats

Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

Disruptive Behaviors/Truancy

1. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.
2. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, vandalism, and hazing.
3. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.
4. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.
5. Being absent without a recognized excuse; State Law and Board of Education policy regarding truancy control will be used with chronic and habitual truants.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable,

shall consider forms of non- exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, Bus Conduct.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, Suspension Procedures. A student who has been suspended shall also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed two calendar years in accordance with Board policy 7:210, Expulsion Procedures. A student who has been expelled shall also be restricted from being on school grounds and at school activities that include, but not limited to, prom, senior activities, and graduation.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in [Article 13A](#) or [13B of the School Code](#).
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), look-alikes, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. It is also not an order in which discipline may be administered. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Students enrolled in the District's State-funded preschool program(s) may be temporarily removed or transitioned to a new program in accordance with federal and State law. State law prohibits the expulsion of students from the program(s).

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Isolated Time Out, Time Out, and Physical Restraint

Neither isolated time out, time out, nor physical restraint shall be used to discipline or punish a student. These methods are only authorized for use as permitted in [105 ILCS 5/10-20.33](#), State Board of Education rules ([23 Ill.Admin.Code §§ 1.280, 1.285](#)), and the District's procedure(s).

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school may be expelled for a period not to exceed two calendar years:

- A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code ([18 U.S.C. § 921](#)), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act ([430 ILCS 65/](#)), or firearm as defined in Section 24-1 of the Criminal Code of 1961 ([720 ILCS 5/24-1](#)).
- A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including look-alikes of any firearm as defined above.

The expulsion requirement under either paragraph one or two above may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy's prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student's ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, Ill. State Police (ISP), and any involved student's parent/guardian. School grounds includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

Student Handbook

The Superintendent or designee, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies.

These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment.

COMMUNITY RELATIONS

8:30 Visitors to and Conduct on School Property

The following definitions apply to this policy:

School property - District and school buildings, grounds, and parking areas; vehicles used for school purposes; and any location used for a Board of Education meeting, school athletic event, or other school-sponsored or school-sanctioned events or activities.

Visitor - Any person other than an enrolled student or District employee.

All visitors to school property are required to report to the Building Principal's office and receive permission to remain on school property. All visitors must sign a visitors' log, show identification, be screened through the Raptor system, and wear a visitor's badge. When leaving the school, visitors must return their badge. On those occasions when large groups of parents/guardians, friends, and/or community members are invited onto school property or when community members are attending Board meetings, visitors are not required to sign in but must follow school officials' instructions. Persons on school property without permission will be directed to leave and may be subject to criminal prosecution.

Marijuana and Other Offensive, Distracting, and or Noxious Odors

Effective July 1, 2025, Individuals that visit our schools and smell of Marijuana or other offensive, distracting, and or noxious odors, will be asked to leave the premises. Marijuana has an odor that can cause/trigger allergic reactions, make others sick from long term exposure, affect indoor air quality, and potentially have cancer-causing chemicals that put our students, staff, and others at risk.

School-aged students that come to school that smell like marijuana, or other offensive, distracting, and/or noxious odors will be asked to call home for a change in clothing or picked up from school so he/she could change clothes. When a student smells of marijuana or other offensive, distracting, and/or noxious odors, it can be distracting for them and others in the classroom which impedes learning. Our goal is, and will continue to be, providing an atmosphere that is safe and conducive to learning.

**** Individuals that use marijuana for medicinal purposes will need to provide a medical card upon requests.*

Except as provided in the next paragraph, any person wishing to confer with a staff member should contact that staff member to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period.

Requests to access a school building, facility, and/or educational program, or to interview personnel or a student for purposes of assessing the student's special education needs, should be made at the appropriate building. Access shall be facilitated according to guidelines from the Superintendent or designee.

The School District expects mutual respect, civility, and orderly conduct among all people on school property or at a school event. No person on school property or at a school event (including visitors, students, and employees) shall perform any of the following acts:

Such access shall be conducted in a manner that will not impede the normal operations of the District.

Public Participation Speech - Thanks LTS

Tuesday, May 27, 2025

Good evening President Clevenger, Dr. Clark, and members of the board. My name is Keith Creighton and I am an assistant principal at Dennis Lab School.

Tonight, I have the privilege of expressing deep, heartfelt gratitude to a group of people who have truly held our school together this year—our long-term substitutes.

These incredible individuals stepped into our classrooms not just to *fill a gap*, but to *be the difference*. While they may not hold a traditional teaching license, what they bring to our students every day—compassion, resilience, consistency, and care—cannot be measured by any credential.

They've shown up in every way imaginable. They've built relationships that matter. They've designed lessons that spark curiosity. They've led field trips, filled coaching roles, joined committees, and stepped far outside their comfort zones simply because our students needed them to.

I've watched them sit beside students who needed someone to believe in them. I've watched them work with families to find solutions. I've seen them dive into professional development, not because they had to, but because they wanted to do better—for our kids. Without them, Dennis Lab School could not have done what it needed to do. Without them, our students would have missed out—on learning, on connection, and on hope.

They are not stand-ins. They are not second-best. They are *essential*, and they are *valued*. They are, in every sense of the word, part of the heart and soul of our school.

It is my honor now to read their names into the public record so that our board, our families, and our entire community can recognize and celebrate their remarkable contributions.

PHILOSOPHY OF THE DECATUR PUBLIC SCHOOLS ATHLETIC PROGRAM

The athletic program is an integral part of the education of all students who attend the Decatur Public Schools. Our goals and objectives are consistent with and comparable to those of the school district. All students have an equal opportunity to participate in athletic programs. No student shall be deprived of the right to participate because of lack of financial resources, nationality, race, color, religion, or sex, sexual orientation, disability, or marital status.

The Middle School Athletics Parent/Student Guide is designed for middle school parents and middle school students. The information is annually reviewed and updated by administrators, athletic directors, and coaches.

The athletic program will be broad based and as extensive as the facilities, staff, and finances can adequately support.

The leadership shall be of the highest quality so as to exemplify to the participants the desired type of individual to be developed from the athletic program.

The measurement of success of the leadership is not limited to win/loss records. It includes the success experienced in helping each participant develop his/her talents and desirable personal characteristics to their fullest.

The athletic program is a laboratory where students experience many of life's situations. Participation in this laboratory activity offers students the opportunity to improve character, dignity, self-worth, and concern for others. Students may learn to develop these human traits and grow as individuals to the extent of their capacity.

STATEMENT OF PURPOSE FOR THE ATHLETIC PROGRAM OF DPS #61

- A. Participation helps develop character, social competence, cooperation, and moral and ethical values that are an everyday part of our society.
- B. Participation develops a mutual respect for all who are involved in the competition: teammates, opponents, coaches, and officials.
- C. Participants must learn to abide by the rules, regulations, and decisions of officials, just as we all must abide by the laws that govern our society.
- D. Participation leads to a better understanding of our democratic ideals, social and economic well-being, and the spirit of fair play.
- E. Participation teaches a student that discipline and self-sacrifice are necessary ingredients of teamwork, if the end result is to be accomplished.
- F. Through participation, the individual will develop a healthy body, a sound mind, and a better understanding of individual differences.
- G. Participation provides valuable lessons which are learned in the course of competition; for example, winning, as well as losing, reflects team effort.
- H. Competition helps to develop the fundamental processes that lead to emotional maturity and self-control.
- I. Participation in the athletic program will cause participants and spectators to look forward to attending school, resulting in an improved student attitude toward school and school-related activities.
- J. Participation in athletic competition will give students an opportunity to achieve, not only for themselves, but for their team and school community and receive their just rewards in return.
- K. The individual school administration must provide adequate control and safety measures for the participants, officials, and spectators in order to insure the proper atmosphere for interscholastic events.
- L. Members of the athletic staff shall abide by the rules and regulations and officials' decisions which govern each sport, maintain the highest standard of ethics, recognize each participant as an individual, conduct themselves in a manner befitting their responsibilities, and develop the kind of rapport with the total school community that will improve the total educational program.

STUDENT CODE OF ETHICS

Decatur Public Schools 61 considers the welfare of the student our priority consideration.

A firm and fair policy of enforcement is necessary to uphold the regulations and standards of the athletic department. Decatur Public Schools Administration and the coaching staff feel strongly that high standards of conduct and citizenship are essential in maintaining a sound program of athletics. All athletes shall abide by a code of ethics which will earn them the honor and respect that participation and competition in the interscholastic program affords.

Any conduct that results in dishonor to the athlete, the team, the school, or Decatur Public Schools will not be tolerated. Acts of unacceptable conduct, such as, but not limited to theft, vandalism, disrespect, immorality or violations of law, tarnish the reputation of everyone associated with the athletic programs and will not be tolerated.

The student's first responsibility is to acquire a quality education. Our athletic programs are co-curricular activities, and the students first priority must be academic achievement.

Athletes are representatives of their school, and their actions and behavior must be such as to reflect a respected image of themselves, fellow students, parents, school, and community. They will spend a great amount of time and effort in participation with their respective sport, but hopefully, they will find it to be a rewarding and enjoyable experience that will be important to them now and in the years to come.

DPS #61 ATHLETIC CODE PROCEDURES

1. Coaches' rules shall be written and distributed so all participants and parents may read and review them. Rules will be shared through mandatory parent meetings.
2. Each coach will hold a team meeting to review team rules with the participants at the beginning of the sport season to make sure the participants are aware of them. A copy of the team rules, seasonal activity participation, and the Athletic Code will be distributed to the parents, or available online, attached to a participation permission form.
3. Coaches' rules must also include consequences for students who violate the rules.
4. Any student accused of violating a rule and subject to a consequence of a suspension of greater than three (3) games shall be informed of the nature of the offense and may request a hearing before the Principal and Athletic Director.

PROCEDURAL OFFENSES IN VIOLATION OF THE ATHLETIC CODE

A student found in violation of the Athletic Code may receive consequences up to and including dismissal from the team/activity for the remainder of the season or school year. Such violations include, but are not limited to:

- Use, possession, transfer, attempted transfer, sale or attempted sale of alcohol, tobacco products, e-cigarettes and/or any controlled/illegal substances or any lookalike, including any substance held out to be a drug, alcohol or tobacco product.
- Violations of individual coaches' rules, insubordination, poor sportsmanship, conduct detrimental to the team and to school spirit.
- Violations of academic integrity and ethics.
- Violations of the DPS 61 Student Code of Conduct.

DISCIPLINARY ACTION / ENFORCEMENT

Participation in athletics is a privilege.

A student who violates the Athletic Code and who has been provided a hearing and assessed a consequence cannot avoid the consequence by transferring to another Decatur Public School. The penalty will be enforced at the student's new school before the student can become eligible for participation.

When a student is dropped from his/her team for disciplinary reasons, it is important that he/she receive a fair notice and that he/she be given a hearing.

All coaches are responsible for reviewing the athletic code, individual school rules, and rules for their respective sport during the first week of practice with the Athletic Director, assistant coaches, students, and parents.

OUT-OF-SCHOOL SUSPENSION / CARE TRANSITION ROOM PLACEMENT

Any situation where a student athlete is receiving an out-of-school suspension for disciplinary reasons by the Building Administrator automatically deems said student unable to practice and/or compete in any athletic events scheduled for the duration of the suspension. The student and parent/legal guardian shall be notified by the Building Administrator as such.

This includes the date the suspension is issued, and any weekends/ school holidays, throughout the time until the student returns to regular class attendance status. The appropriate sport Coach(s) and Athletic Director shall be notified by Building Administration upon any student athlete being suspended from school.

In example, a student athlete is suspended on Friday morning for a disciplinary infraction and is out of school for the suspension through Monday... successfully returning to classes Tuesday morning. This student CANNOT participate in any school-sponsored athletic event,

nor practice, beginning Friday thru Monday night... They may resume activities Tuesday morning.

In the case where a student athlete is placed in the school's Care Room or Transition Room for disciplinary action reasons by the Building Administrator, resulting in a 1/2-day placement or more, the same denial of athletic participation and notification shall occur - as indicated for an out-of-school suspension. **Placements less than the individual school's "½ day bell schedule" will not result in any suspension of participation in athletics.*

Illinois Elementary School Association

The Association shall be known as the Illinois Elementary School Association (IESA) The Association shall be registered with the State of Illinois as a not -for -profit corporation.

- The Association through the employment of the instrumentalities hereinafter established shall:
 - Regulate all the interscholastic activities in which its member schools may engage; and
 - Perform such other functions related to interscholastic activities as may from time to time be approved and adopted by the Board of Directors.
- In the performance of these functions, the ultimate educational objectives of the Association are:
 - To elevate standards of sportsmanship
 - To encourage the growth of responsible citizenship; and
 - To encourage academic excellence

ACADEMIC ELIGIBILITY

The IESA requires that a weekly grade check is completed for every athlete who is on a competition athletic roster. This report must be completed on the same day of each week and athletes must be notified of any failing grade. The IESA determines eligibility considering all grades that are reported on the quarterly report card. The athlete must pass each class in which he or she is enrolled with a grade of D or better. If an athlete has a failing grade in any of his or her classes, the athlete is ineligible the next week and will continue to be ineligible until all failing grades have been raised to at least a D.

Eligibility can be recorded in one of two methods: Skyward computer program printouts or Teacher/Athletic Director hard copy checklists. Coaches may address grade issues with individual athletes who are showing signs of grade trouble in classes. In some cases, the coach will request a parent conference to help the student athlete improve his or her grades.

Most schools run grades the day before a week concludes, which in most weeks, is Thursday. Some weeks, however, are shorter due to in-service days and holidays. Those weeks' grades must be submitted the day before the week concludes.

The element of eligibility that confuses athletes and their parents is that the measure is always a week behind the week of the contests. The athlete can be showing passing grades after the weekly grade check has been recorded but is still excluded from participation due to the failing grades that were recorded at the end of the prior week.

The grade recorded on the weekly eligibility check is final and cannot be changed at a later date.

Ex: Grades are turned in Thursday and show that a student athlete is failing a subject, but when the parent looks on Skyward on Friday afternoon, it shows as a passing grade. That athlete is still ineligible for any event the following week.

The cutoff day must be the same each week and reporting must be consistent.

Once the grades are turned in and the computer grade check run, print the weekly report and retain (in files) as proof of grades. Notify the athlete, coach, teachers and athletic administration. A report of ineligibility should be delivered to an ineligible athlete before he or she leaves the building on the last day of each week.

2.040 SCHOLASTIC STANDING

2.041 All contestants shall be in grades five through eight (5-8) and shall not have passed eighth grade standing. At no time, may a student who is in fourth grade or lower practice or participate with a member school.

2.042 A student shall be doing passing work as determined by the local school district in all school subjects and the school shall certify compliance with this By-Law. Use of a player, contestant, or participant shall be deemed such certification.

2.043 For all IESA activities, athletic as well as non-athletic, passing work shall be checked weekly. Eligibility will be applied to the Monday through Saturday following the week that was checked. Students must be passing each subject each week to be eligible. Grades shall be cumulative for the school's grading period.

2.044 The eligibility check shall be the same day each week unless school is not in session; then it must be taken on the last day of student attendance that week.

2.045 For fall sports, the first eligibility check shall be made following the first full week of attendance at the beginning of the school year. During the succeeding weeks of the school year, the eligibility check shall begin the week prior to the first contest in an activity.

2.046 In cases where a contest has been postponed or re-scheduled, the current week eligibility shall be used to determine a student's eligibility. For example, a contest is scheduled to be played on Tuesday and because of poor weather, the contest is rescheduled for two weeks later. A student who was grade eligible for the originally scheduled game but is

ineligible during the week of the rescheduled game is not eligible. Conversely, a student who was ineligible the week of the originally scheduled game and is grade eligible the week of the rescheduled contest is eligible to play.

IESA Penalties: Ejections for Unsportsmanlike Behavior

The IESA Board of Directors approved a change to the penalties assessed to players, coaches, and now fans who are removed from a contest for unsportsmanlike behavior. These changes will become effective with the start of the 2020-21 school year.

Consequences for behaviors meriting ejection from a school sponsored event:

A. Student – Athletes:

- 1st ejection: the student is required to miss the next 2 contests and complete the National Federation of State High School Association Sportsmanship course. This course can be found at www.iesa.org Upon course completion, a printed certificate of completion must be submitted to the IESA via the school Athletic Director.
- 2nd ejection(same sport): the student is required to miss the next 5 contests and pay \$100 fine to the IESA.

B. Coaches:

- 1st ejection: the coach is required to miss the next 2 contests, pay \$100 fine and complete the National Federation of State High School Association Sportsmanship course. This course can be found at www.iesa.org Upon course completion, a printed certificate of completion must be submitted to the IESA via the school Athletic Director.
- 2nd ejection: the coach will be required to miss the next 5 contests and pay \$250 fine to the IESA.

C. Fans/Parents:

- Removal from ALL future contests until completion of the National Federation of State High School Association Sportsmanship course. This course can be found at www.iesa.org Upon course completion, a printed certificate of completion must be submitted to the IESA via the school Athletic Director.

IESA Transfer Rules 2.060

A transfer student is defined as one who transfers from one school to another school after the first day of classes at his/her school.

Effective with the start of the 2022-23 school year, a student who transfers after the first day of practice in a given activity will be allowed to join the team for his or her new school only if he/she did not tryout, practice, or participate in a contest for the previous school prior to the beginning of the IESA regulated season. They would still need to sit 10 days before participating in a contest for the new school.

A student who transfers from one school to another is eligible immediately if the school from which he/she transfers is involved in a co-op with the school to which he/she is transferring.

CONFERENCE AFFILIATION: Soy City Conference

The following schools: American Dreamer, Dennis Lab, Hope Academy, Johns Hill Magnet, Montessori Academy of Peace, Robertson Charter, and Stephen Decatur are members of the Soy City Conference.

No conference commitments shall be made which would be inconsistent with the athletic policies of the Decatur Public Schools.

Participating Schools & Activities

American Dreamer: Baseball (Co-Op), Softball (Co-Op), Cross Country, Soccer (Co-Op), Girls Basketball, Boys Basketball, Cheerleading, Wrestling (Co-Op), Girls Volleyball, Track & Field

Tryouts / Team Roster Cuts/Sports Physicals

In all sports/activities where there are “roster limitations”, there is a chance that the school’s coaching staff might have to hold tryouts and make roster cuts to meet these limits due to the number of students trying out. The IESA and/or DPS restricts roster numbers in the following sports/activities: Softball, Baseball, Soccer, Girls Basketball, Boys Basketball, Cheerleading, and Volleyball.

The District requires a minimum of a 3-day tryout in Middle School sports/activities where cuts are deemed necessary. The try-out schedule will be designated by the coach and Athletic Director. **A current physical MUST be on file with the office, nurse, or Athletic Director prior to try-out for an activity. These Physicals must be renewed EVERY year of participation.** A pre-season informational meeting will be held (in addition to in-school announcements and/or fliers and online notifications) as to when a specific sport/activity will begin tryouts or practices. Coaches will determine (with the assistance of the school’s Athletic Director) a practice schedule utilizing the availability of the school’s athletic facilities. Every effort will be made to notify all students (prior to the beginning of a sport season) as to when tryouts/practices will begin.

Team roster cuts may be based upon (but not limited to) the student's: ability in the sport; age/academic status; disciplinary/behavior issues in school; attendance at tryouts/practices/contests; and their ability to work cooperatively with other team athletes and coaches in the sport.

ACTIVITY / PARTICIPATION FEES:

Every student athlete is expected to pay a participation fee of \$10.00 per sport upon making the team and by the end of the first week of regular practice activity. There is a \$50 maximum per student/ school year. If a parent/guardian writes a check, it must be made out to the school of enrollment.

Dual Participation in Middle School Sports*

In DPS61, Middle School students may participate in more than one athletic activity at a time throughout the school year. Due to the various calendar dates over which DPS/IESA sports seasons occur, there might be a situation where a student wishes to try-out for/participate in more than 1 sport and/or activity at the same time (dual participation). In the instances where this occurs, the student athlete must determine, in writing, which sport/activity is their primary activity at the beginning of the seasons in conflict. Their commitment of a "primary" sport/activity will indicate their 1st area priority (choice) in the event of a scheduling conflict between 2 or more co-existing athletic events. *A copy of the athlete's choice of their primary sport/activity will be on file with the school Athletic Director and given to all coaches involved.

The precedent for attendance at/participating in the primary sport/activity is as follows:

- Games over Practice
- Primary choice Games over secondary choice Games
- Games/Practices over Open Gyms
- Primary practices over secondary practices.
- In the event where there are overlapping /conflicting practices the coaches shall get together to work out a shared time schedule so that the student might be able to attend both sports where the overlap might occur.
- No coach may penalize a student athlete participating in multiple overlapping activities for missing a practice or contest when following the precedent set above.

Daily Attendance / Athletic Contest Participation:

District policy states that a student must be "in attendance" at school at least ½ day on the day of an athletic contest in order to be allowed to participate in that day's contest. *Each individual school's "1/2 day" is determined by their actual bell schedule... *i.e.: a ½ day at an "early dismissal school" might be 10:45 AM, whereas at a "later dismissal school" their ½ day might be 12:05 PM.* Items such as "doctor/dentist appointments, funerals, and court appearances." are all excused providing that the parent/legal guardian signs the student in/out at the school office for said events. *School-sponsored events, such as off-campus field trips and performances are also excused.

Punctuality

Parent will bring their child to practice on time and they will pick up their child from practice, home games and away games no later than 10 minutes after practice or game is over. The coaches stay to protect your child, please respect the coach by being responsible. Failure to be to practice on time and coming later than 10 minutes to pick your child up, may affect their playing time.

Parental Concerns Policy

A copy of the team rules, seasonal activity participation, and the Athletic Code will be distributed to parents and attached to the permission form. Coaches shall have mandatory parent meeting before the start of the sport season and review their rules and schedules. Parents are expected to be role models of good sportsmanship and support for the sport that their student participates.

In the event that a parent has a concern involving a coach or sport program that their student participates; the following guidelines shall be followed:

1. Concerns such as playing time, player positions, coaching philosophy and/or game strategy are **NOT** items warranting individual coach/parent discussion.
2. No conversations between player, coach, or parent should occur within 24 hours of situation.
3. The student-athlete should directly address the coach to attempt to resolve the issue at hand.
4. Other parent concerns shall be addressed by the parent making an appointment with the coach for a private parent/coach conversation to discuss the concern and reach a resolution. Parent/Coach conversations should **not** be conducted in front of the players or during scheduled practice times.
5. If the parent/coach meeting does not resolve the concern, the parent may request a meeting with the Athletic Director, Coach, and Parent to further discuss the concern and reach a resolution.
6. If this meeting does not resolve the concern, a final meeting including the Principal, the Athletic Director, the Coach, and the Parent will be scheduled to discuss the concern.
7. The Principal is the administrative head of all inter-scholastic activities in the school and is the IESA District Representative for the District. The FINAL decision and appeal for a resolution of the concern will be made by the Principal after the FINAL meeting.

Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:	
<ul style="list-style-type: none">• Headaches• “Pressure in head”• Nausea or vomiting• Neck pain• Balance problems or dizziness• Blurred, double, or fuzzy vision• Sensitivity to light or noise• Feeling sluggish or slowed down• Feeling foggy or groggy• Drowsiness• Change in sleep patterns	<ul style="list-style-type: none">• Amnesia• “Don’t feel right”• Fatigue or low energy• Sadness• Nervousness or anxiety• Irritability• More emotional• Confusion• Concentration or memory problems (forgetting game plays)• Repeating the same question/comment
Signs observed by teammates, parents and coaches include:	
<ul style="list-style-type: none">• Appears dazed• Vacant facial expression• Confused about assignment• Forgets plays• Is unsure of game, score, or opponent• Moves clumsily or displays in coordination• Answers questions slowly• Slurred speech• Shows behavior or personality changes• Can’t recall events prior to hit• Can’t recall events after hit• Seizures or convulsions• Any change in typical behavior or personality• Loses consciousness	

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often fail to report symptoms of injuries. Concussions are no different. As a result, education of administrators, coaches, parents and students is the key to student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. The Return-to-Play Policy of the IESA and IHSA requires athletes to provide their school with written clearance from either a physician licensed to practice medicine in all its branches or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches prior to returning to play or practice following a concussion or after being removed from an interscholastic contest due to a possible head injury or concussion and not cleared to return to that same contest. In accordance with state law, all schools are required to follow this policy.

You should also inform your child's coach if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

PHILOSOPHY OF THE DECATUR PUBLIC SCHOOLS ATHLETIC PROGRAM

The athletic program is an integral part of the education of all students who attend the Decatur Public Schools. Our goals and objectives are consistent with and comparable to those of the school district. All students have an equal opportunity to participate in athletic programs. No student shall be deprived of the right to participate because of lack of financial resources, nationality, race, color, religion, or sex, sexual orientation, disability, or marital status.

The athletic program will be broad based and as extensive as the facilities, staff, and finances can adequately support.

The leadership shall be of the highest quality so as to exemplify to the participants the desired type of individual to be developed from the athletic program.

The measurement of success of the leadership is not limited to won and lost records. It includes the success experienced in helping each participant develop his/her talents and desirable personal characteristics to their fullest.

The athletic program is a laboratory where students experience many of life's situations. Participation in this laboratory activity offers students the opportunity to improve character, dignity, self-worth, and concern for others. Students may learn to develop these human traits and grow as individuals to the extent of their capacity.

**STATEMENT OF PURPOSE FOR THE ATHLETIC PROGRAM OF
SCHOOL DISTRICT 61**

- A. Participation helps develop character, social competence, cooperation, and moral and ethical values that are an everyday part of our society.
- B. Participation develops a mutual respect for all who are involved in the competition: teammates, opponents, coaches, and officials.
- C. Participants must learn to abide by the rules, regulations, and decisions of officials, just as we all must abide by the laws that govern our society.
- D. Participation leads to a better understanding of our democratic ideals, social and economic well-being, and the spirit of fair play.
- E. Participation teaches a student that discipline and self-sacrifice are necessary ingredients of team work, if the end result is to be accomplished.
- F. Through participation, the individual will develop a healthy body, a sound mind, and a better understanding of individual differences.
- G. Participation provides valuable lessons which are learned in the course of competition; for example, winning, as well as losing, reflects team effort.
- H. Competition helps to develop the fundamental processes that lead to emotional maturity and self-control.
- I. Participation in the athletic program will cause participants and spectators to look forward to attending school, resulting in an improved student attitude toward school and school-related activities.
- J. Participation in athletic competition will give students an opportunity to achieve, not only for themselves, but for their team and school community and receive their just rewards in return.
- K. The individual school administration must provide adequate control and safety measures for the participants, officials, and spectators in order to insure the proper atmosphere for interscholastic events.
- L. Members of the athletic staff shall abide by the rules and regulations and officials' decisions which govern each sport, maintain the highest standard of ethics, recognize each participant as an individual, conduct themselves in a manner befitting their responsibilities, and develop the kind of rapport with the total school community that will improve the total educational program.

ORGANIZATION AND ADMINISTRATION THE ILLINOIS HIGH SCHOOL ASSOCIATION

Dwight D. Eisenhower and Douglas MacArthur High Schools are members of the state association which determines the overall pattern for inter-school athletics in Illinois.

As stated in the constitution of the IHSA:

This Association shall be known as the Illinois High School Association (IHSA). It shall be the purpose of this Association to provide leadership for the development, supervision, and promotion of interscholastic competition and other activities in which its member schools engage. Participation in such interscholastic activities offers eligible students experiences in an educational setting which may provide enrichment to the educational experience.

This Association, through the employment of the instrumentalists, hereinafter shall:

1. Supervise and regulate all of the interscholastic activities in which its member schools may engage; and
2. Perform such other functions related to interscholastic activities as may from time to time be approved and adopted by the membership.

In the performance of these functions, the objectives of the Association shall be:

1. To stress the educational importance, the cultural values, the appreciations and skills involved in all interscholastic activities, and to promote cooperation and friendship;
2. to regulate interscholastic programs in both character and quantity according to the accepted objectives of secondary education so that interscholastics shall not unduly interfere with nor abridge the regular program of teachers and students in the performances of their regular day to day school duties;
3. to encourage economy in the time of the student and teacher personnel devoted to interscholastic activities;
4. to encourage economy in expenses of interscholastic activities; and to promote only those activities which enhance the school's desired educational goals.

CONFERENCE AFFILIATION

The two Decatur public high schools (Dwight D. Eisenhower and Douglas MacArthur) are members of the Central State 8 Conference.

No conference commitments shall be made which would be inconsistent with the athletic policies of the Decatur high schools.

THE DECATUR SCHOOL BOARD

The Board of Education, responsible directly to the people, is the supreme educational agency for the public schools.

The duties of the Board of Education in athletic matters may be considered to be the same as for education generally. They are as follows:

1. Interpreting the needs of the community and requirements of the professional organization;
2. developing policies in accordance with the law and in accordance with the educational needs and wishes of the people;
3. approving means by which professional agents and agencies may make these policies effective;
4. furnishing financial means which provide physical and educational conditions by which organized activity may be carried on;
5. appraising the efficiency of the agents and of the service rendered in terms of their value to the community;
6. keeping the people intelligently informed of the purpose, value, conditions, and needs of the public education within the community.

THE SUPERINTENDENT OF SCHOOLS

The executive function is delegated to the Superintendent of Schools who is charged with the responsibility for devising means and ways of executing efficiently the policies adopted by the Board of Education.

The Superintendent of Schools recommends to the Board of Education the appointment of principals, coaches, assistant coaches, supervisors, and others who are given any responsibility for the handling of inter-school athletics.

He or she approves all policies and procedures recommended by his/her staff and is, in fact, directly responsible to the school board for the successful performance of the organization.

THE HIGH SCHOOL PRINCIPALS

The high school principal is the administrative head of the inter-scholastic athletic activities just as he/she is of all other activities at the school.

As members of Administrative Cabinet, the high school principals help formulate policies. As administrative heads of the schools, they are directly responsible to the state athletic association and the Deputy Superintendent of Schools for the conduct of the schools' athletic activities.

Some specific duties of the Administrative Team and/or Athletic Director are:

1. Certifying the eligibility of all players.
2. Signing contracts for games.
3. Signing contracts for officials.
4. Representing the school's position concerning issues which are presented by the IHSA and the Athletic Conference.
5. Management and consistent monitoring of the overall athletic program.

PROCEDURE FOR ESTABLISHING ATHLETIC POLICY GUIDE

The athletic directors receive input from the coaching staff in their buildings. Annually, the athletic directors then meet to make recommendations for additions, revisions, or deletions to the present policy.

Recommendations are then taken to the Assistant Superintendent, Chief Financial Officer and/or designated designee. Items recommended by the athletic directors and approved by the Assistant Superintendent become included in the athletic policy guide. Changes to the policy guide must be approved by the Board of Education.

THE COACHES CODE OF ETHICS

(National Federation Interscholastic Coaches Association)

The function of a coach is to educate students through participation in interscholastic competition. The activity shall be designed to enhance academic achievement and never interfere with opportunities for academic success. Each student shall be treated with the upmost respect, and his or her as welfare must be considered in decisions by the coach at all times. Accordingly, the following guidelines for coaches have been adopted by the NFHS Board of Directors.

The coach must be aware that he or she has a tremendous influence, either good or ill, in the education of the student and, thus, shall never place the value of winning above the value of instilling the highest ideals of character.

The coach shall follow the social media rules and guidelines as outlined by District policy.

The coach shall uphold the honor and dignity of the profession. In all personal contact with the students, officials, athletic directors, school administrators, the state high school athletic association, the media, and the public, the coach shall strive to set an example of the highest ethical and moral conduct.

The coach shall take an active role in the prevention of drug, alcohol, and tobacco abuse.

The coach shall avoid the use of alcohol and tobacco products when in contact with players.

The coach shall promote the entire interscholastic program of the school and direct his or her program in harmony with the total school program.

The coach shall master the contest rules and shall teach them to his or her team members. The coach shall not seek an advantage by circumvention of the spirit or letter of the rules.

The coach shall exert his or her influence to enhance sportsmanship by spectators, and by working closely with cheerleaders, pep club sponsors, booster clubs, and administrators.

The coach shall respect and support contest officials. The coach shall not indulge in conduct which will incite players or spectators against the officials. Public criticism of officials or players is unethical.

The coach should meet and exchange cordial greetings with the opposing coach to set the correct tone for the event before and after the contest.

The coach shall not exert pressure on faculty members to give student special consideration.

The coach shall not scout opponents by any means other than those adopted by the league and/or state high school athletic association.

ATHLETIC PROGRAM INTERSCHOLASTIC PROGRAM

Each of the high schools will offer a program for boys which consists of football, basketball, baseball, cross country, track and field, tennis, golf, soccer, and wrestling. * The number of contests permitted is restricted to the number listed for the two squads. The IHSA sponsored tournaments are permitted in addition to the number of contests listed.

Additional Program Guidelines:

If, because of the shortage of coaches, a coach cannot be hired to coach a team, the team may not be formed.

GUIDELINES FOR CUTTING

Each participant shall be assured a minimum of three practices before he/she is cut. The number three is used for sports where a large number of candidates try out and there is a limited amount of practice time before the first scheduled contest. Where a fewer number try out, the coach may want to permit more practices before making his first cut. Students, who report late due to participation in other approved school district sports or activities, will have the opportunity to participate in a least three practices before they are cut.

Every effort shall be made by the coach to provide each candidate with an opportunity to demonstrate his/her skill in as many areas as feasible which relate to that particular sport and with the proper equipment to demonstrate this skill.

In all of his/her contact with the players, the coach must make every effort to treat all candidates fairly and as impartially as possible, recognizing that he may know some candidates from previous associations.

It shall also be the responsibility of the coach, when asked, to encourage, advise, and counsel those athletes cut from the squad to help them prepare for the following year and better understand the reasons for being cut.

DISCIPLINARY ACTION

Participation in athletics is a privilege.

When a student is dropped from his/her team for disciplinary reasons, it is important that he/she receive a fair notice and that he/she be given an opportunity to appeal to administration.

All coaches are responsible for reviewing the athletic code, individual school rules, and rules for their respective sport during the first week of practice with the Athletic Director, assistant coaches, students, and parents.

ATHLETIC DIRECTOR AND ATHLETIC OFFICIALS

Hiring of Officials

The hiring of officials shall be mutually satisfactory to the schools involved in the contest concerned. Decatur Public Schools also will conform with conference rules pertaining to the selection of officials. For varsity basketball contests involving intra-city teams, three officials will be hired.

TRANSPORTATION POLICY

The guidelines for using school district transportation are:

- A. A yellow school bus or school activity bus shall be used whenever possible. This is the safest means of transportation for our athletes.
- B. A school district van shall be used when there are eight or fewer people making the trip (eight passenger vans includes the driver). Consideration may also be given to using the vans when they are not being used for other school district business and it is more economical to take vans than a bus. For example, vans may be used to transport basketball or wrestling teams to holiday tournaments.

Only school district employees with a valid driver's license shall be permitted to drive a school van. No school employee may transport students in school or private vehicles unless authorized by the administration.

- C. The district prefers that a coach not use his/her personal vehicle to transport players to an athletic contest. If a coach receives permission to transport in his/her vehicle he/she must show adequate insurance coverage, each student must sign a permission form, and the coach will be reimbursed the current school district's rate for mileage when using a personal vehicle for this purpose.
- D. Students are expected to arrive and return from athletic events with their team and coach in the district provided transportation. In the rare event that a student must leave the activity due to an unusual event, the student's parent/legal guardian must present to the student's coach a note signed by them indicating they are taking the student with them and relieving the school of their responsibility of transporting the student back to the school building. A student may only leave with their parent/legal guardian. The District reserves the right to require court documentation of parental / guardian status when releasing a student to a parent/legal guardian.

- E. Every effort will be made to minimize transportation needs through the scheduling of activities.

When ordering a bus or van, a bus request shall be completed electronically. The bus request forms for fall and winter sports shall be submitted prior July 1st. Bus requests for spring sports shall be submitted by February 1st.

TRANSPORTATION PROCEDURES

The Decatur Public School District provides transportation for IHSA sanctioned contests using the following as guidelines. All arrangements for the transportation of students is to be arranged by the district's transportation department, phone 362-3026.

High School: Transportation is restricted to active participants. Active participants include students expected to be in uniform, student manager(s), school district paid coaches, approved volunteer coaches, trainer, adults paid to act as scorekeepers or minor officials, athletic directors, and school/district administrators. Persons not eligible to ride include parents, student spectators, pom pon squads, spouses/children.

Cheerleaders: The district-paid cheerleading advisor must accompany the cheerleaders on the bus.

Bus Information: All buses must be requested through the normal district procedure. Athletics have a priority over other types of events only if ordered in advance and in this manner. Buses utilized for athletic transportation have a capacity of 62 if seated 3 to a seat. If seated 2 to a seat, the capacity is 44.

Vans: District 61 has a fleet of 5 student vans. Seating capacity is 8 persons including the driver. The transportation department may rent cars or vans which meet state requirements when necessary. Students are never allowed to drive district-owned or rented vehicles and are never given mileage reimbursement. Drivers must be district-approved persons. The vans are to be picked up the day of use and returned immediately after use.

Personal Cars: District 61 prefers that personal vehicles are not used. In limited circumstances, the district will pay a coach mileage in lieu of using a district van. A coach should never be required to drive his/her own vehicle when transporting student athletes to compete in out-of-town IHSA events. A coach is required to have administrative permission to use his/her personal vehicle prior to the event, shall submit proof of insurance, and student athletes shall be required to submit a permission form if riding in a coach's personal vehicle. Student athletes shall never be permitted to use private vehicles as transportation to compete in an out-of-town event. Students will not be reimbursed for mileage.

Vans and buses may be used for reward purposes, such as team trips to University of Illinois games. Trips to theme parks cannot be charged to the transportation or education fund. School buses and vans may be used, if available, but must be paid for from building and/or activity funds.

STUDENT CODE OF ETHICS

Decatur Public Schools 61 considers the welfare of the student our priority consideration.

A firm and fair policy of enforcement is necessary to uphold the regulations and standards of the athletic department. Decatur Public Schools Administration and the coaching staff feel strongly that high standards of conduct and citizenship are essential in maintaining a sound program of athletics. All athletes shall abide by a code of ethics which will earn them the honor and respect that participation and competition in the interscholastic program affords.

Any conduct that results in dishonor to the athlete, the team, the school, or Decatur Public Schools will not be tolerated. Acts of unacceptable conduct, such as, but not limited to theft, vandalism, disrespect, immorality or violations of law, tarnish the reputation of everyone associated with the athletic programs and will not be tolerated.

Policy Regarding Parental Concerns

A copy of the team rules, seasonal activity participation, and the Athletic Code will be distributed to parents and attached to the permission form. Coaches shall have mandatory parent

meetings before the start of the sport season and review their rules and schedules. Parents are expected to be role models of good sportsmanship and support for the sport that their student participates.

In the event that a parent has a concern involving a coach or sport program that their student participates, the following guidelines shall be followed:

1. Concerns such as playing time, player positions, coaching philosophy or game strategy are NOT items warranting individual coach/parent discussion.
2. Other parent concerns shall be addressed by the parent making an appointment with the coach for a private parent/coach conversation to discuss the concern and reach a resolution.
3. If the meeting between the parent and coach does not resolve the concern, the parent may request a meeting with the Athletic Director and the coach to further discuss the concern and reach a resolution.
4. If this meeting does not resolve the concern, a final meeting between the Principal, the Athletic Director, the coach and the parent will be scheduled to discuss the concern.
5. The Principal is the administrative head of all inter-scholastic activities in the school and is the IHSA or IESA District Representative for the District. The final decision and appeal for a resolution of the concern will be made by the Principal after the final meeting.
6. Do not approach the coaches or players immediately following a game.

DECATUR PUBLIC SCHOOLS ATHLETIC CODE

PROCEDURES

1. Coaches' rules shall be written and distributed so all participants and parents may read and review them. Rules will be shared through mandatory parent meetings.
2. Each coach will hold a team meeting to review team rules with the participants at the beginning of the sport season to make sure the participants are aware of them. A copy of the team rules, seasonal activity participation, and the Athletic Code will be distributed to the parents, or available online, attached to a participation permission form.
3. Coaches' rules must also include consequences for students who violate the rules.
4. Any student accused of violating a rule and subject to a consequence of a suspension of greater than three (3) games shall be informed of the nature of the offense and may request a hearing before the Principal and Athletic Director.

OFFENSES IN VIOLATION OF THE HIGH SCHOOL ATHLETIC CODE

A student found in violation of the Athletic Code may receive consequences up to and including dismissal from the team/activity for the remainder of the season or school year. Such violations include, but are not limited to:

- **Use, possession, transfer, attempted transfer, sale or attempted sale of alcohol, tobacco products, e-cigarettes and/or any controlled/illegal substances or any lookalike, including any substance held out to be a drug, alcohol or tobacco product.**

- **Violations of individual coaches' rules, insubordination, poor sportsmanship, conduct detrimental to the team and to school spirit.**
- **Violations of academic integrity and ethics.**
- **Violations of the DPS 61 Student Code of Conduct.**

ENFORCEMENT

A student who violates the Athletic Code and who has been provided a hearing and assessed a consequence cannot avoid the consequence by transferring to another Decatur Public High School. The penalty will be enforced at the student's new school before the student can become eligible for participation.

SEASONAL ACTIVITY PARTICIPATION

Limited dual participation in activities is permissible. The philosophy of our district is to permit a student with a special talent to contribute to the success of an activity in an additional program. The student must designate one activity as his/her primary activity. His/her first commitment is to the activity that he/she is considered to have designated as his/her primary activity.

To apply this guideline to a situation where a student has a conflict between school activities, the following procedure will be followed to resolve the situation:

- Step 1** The student shall inform teachers, coaches, etc. of the conflict and attempt to resolve the situation on his/her own.
- Step 2** Unresolved conflicts will be jointly discussed by both instructors in an attempt to reach resolution. Where possible, teachers/coaches will work to share the student fairly between conflicting activities. Consideration will be given to the nature and importance of the opposing activities. For example, games/matches, competitions, and performances take precedence over practices.
- Step 3** If the conflict cannot be resolved in the preceding steps, the matter shall be appealed to the building level administration for resolution. Resolution will then involve consideration of the designated primary activity and the nature and importance of the conflicting activity. Care will be taken to resolve the conflict in the best interest of the student and the school.

No penalty shall be assessed to the student if the resolution procedure results in a missed practice, performance, competition, etc.

Examples of dual participation in two athletic teams are:

1. A soccer player who wishes to punt, kick field goals, and/or kick off for football.

Special note - players who cross over from soccer to football need to be physically conditioned to football situations.

2. A volleyball player who wishes to participate in girls IHSA golf tournament.
3. A baseball or softball player who can fill in on the relay team for track.
4. A cheerleader must be permitted to participate in spring sports.

Sophomores, Juniors, or Seniors who quit a fall sport may not go out for a winter sport until the fall sports season is over. Special circumstances will be considered in an appeal.

Sophomores, Juniors, or Seniors who quit a winter sport may not go out for a spring sport until the winter sports season is over. Special circumstances will be considered in an appeal.

A freshman shall be allowed to leave a team on or before the first day of school for a fall sport and on or before Thanksgiving for a winter sport without being penalized.

STUDENT ASSIGNMENTS, RESIDENCY, AND TRANSFERS

Student enrollment and attendance center assignments shall be governed by the Decatur School District No. 61 policies and the Illinois school residency laws found in the *Illinois School Code*.

- A. If the parent(s) of a middle/high school student move(s) after the start of the school year, the *Illinois School Code* allows that student to complete the current school year only at the same school. IHSA Athletic Eligibility By-Laws require a ruling on IHSA eligibility by the Executive Director in the event of such circumstances.
- B. Students who have attended one school while enrolled in Decatur Public Schools for their entire high school career and whose parents, custodial parent, or court appointed guardian move from the attendance area traditionally served by that school following the student's completion of the eleventh (11th) grade, may remain in that school and retain eligibility if the student has attained senior classification by the beginning of the new academic year and with the appropriate amount of credits subject to IHSA eligibility restrictions and the DPS 61 criteria below:
 - a. Parent(s) provide transportation.
 - b. Absenteeism and tardiness shall not increase beyond the student's previous record.
 - c. The student shall be picked up promptly after school or practice.
- C. Transfer Rules for Athletics
 - 1. If a student's attendance center is determined by an IEP Team, the student shall be eligible at either their home high school or eligible at both their home high school or the school housing the special education setting as governed by IHSA by-laws.
 - 2. If a student transfers from one attendance center to another attendance center in the Decatur School District, IHSA rules will apply in all cases.

Also, the Decatur Public Schools shall abide by the IHSA Athletic Eligibility By-Laws for all provisions including Attendance (3.010), Residence (3.030), Transfer (3.040), and Scholastic Standing (3.020).

SCHOLASTIC STANDING

The Board of Education Policy states:

Students in grades 9-12 must satisfy the Illinois High School Association's scholastic standing requirements (in District 61 the requirement of passing at least 25 credit hours of high school work per week). Any student participant failing to meet these academic criteria shall be suspended from the activity until the specified academic criteria are met.

Each team coach will provide the athletic director a list of participants that will be used to generate the official eligibility list. The athletic director will then provide the official participant list to the eligibility secretary who will in turn generate a master eligibility list. The secretary will then provide this official list to each teacher for the eligibility grade checks. Each week the eligibility secretary will provide to the athletic director, appropriate coach, and the building principal a list of any student athlete who is failing and/or is ineligible for athletic participation the next week. It is imperative that all teachers enter grades into the grading system by Thursday midnight. The period of ineligibility shall run from Monday morning through Sunday evening following the grade check announcement on Friday. A student shall be declared academically ineligible if he/she is not passing twenty-five credit hours of course work for the preceding week of the scheduled contests.

MAKING THE WEEKLY ELIGIBILITY CHECK

The following procedure shall be followed in making the weekly eligibility check. "Twenty-five (25) credit hours of high school work" is defined as any combination of subjects, accepted by local high school authorities in determining the requirements for graduation and which accumulates at least two (2) credits or its equivalent per semester. Since the rules require that a student must be passing in twenty-five (25) credit hours per week, a weekly check of each student athlete's scholastic eligibility is necessary.

Most important to note is that "a student must satisfy all academic standards (i.e., pass five classes with a grade of D or above)" is determined to measure a student's performance on a cumulative basis from the beginning of a semester through the date on which the check is made.

Schools shall conduct this weekly check in a consistent manner convenient to its individual operations. Student eligibility or ineligibility is then enforced on the Monday following the date of the check. For example, consider a school which checks eligibility every Wednesday. Records are processed through the computer and a printout of all athletes' standings is given to the athletic director on Friday. His office reviews the list and reports Thursday afternoon to the principal that a student is not passing twenty-five (25) hours as of this check. The principal informs the student and coaches on Friday morning that the student is not passing the required work and is, thus, ineligible for one week, beginning the following Monday morning. The student may play in contests held that evening or on Saturday, the next day; however, the entire next week, the student is ineligible.

AGE

IHSA By-Law

4.061: "A student shall be eligible through age nineteen (19) unless the student shall become twenty (20) during a sport season, in which event eligibility shall terminate on the first day of such season (as the season is defined in Section 5.000 of these By-laws).

ATHLETIC INJURIES

The procedure for reporting accidents in the interscholastic program shall be as follows:

Accidents that occur in the interscholastic program shall be reported on the Decatur Public Schools Student Accident Report form using the same criteria for reporting as in any other reportable accident. The accident form shall be completed and provided to the school office.

School District 61 contracts HSHS St. Mary's to provide athletic training services. Athletic Trainer will provide Services within the scope of his/her license under the provisions of 225 ILCS 5/1 et seq., referred to as the Illinois Athletic Trainers Practice Act, and 68 Illinois Administrative Code 1160. Athletic Trainer will offer treatment options, including without limitation, ice, heat, therapeutic exercises, taping and bracing. Athletic Trainer may only suggest over-the-counter medication. When appropriate, Athletic Trainer may suggest further testing or treatment. Documentation of the Services will be provided and a copy made available for the athlete's record file.

INSURANCE

The District has an accident insurance policy in place that covers all student athletes. Requirement for student proof of insurance is no longer necessary.

PHYSICAL EXAMINATION

Students in their first seven (7) semesters of attendance shall have filed with their high school principal a certificate of physical fitness issued by a licensed physician not more than one-year preceding practice or participation in any interscholastic athletic contest or activity. Students in their eighth (8th) semester of attendance shall have filed with their high school principal a certificate of physical fitness issued by a licensed physician not more than thirteen (13) months preceding practice or participation in any interscholastic athletic contest or activity.

PARENT PERMITS

Parent permit forms will be provided by the district. Each participant shall be required to have a signed form on file in the athletic director's office before the student may participate in any sport. A sample of a parent permit may be found on page

PARTICIPATION FEE

All students who participate in the athletic program will be assessed a participation fee. The participation fee is \$20 per sport or a total cap of \$100 per family, (please refer to the Finger Tips Facts and Figures on page 33). The fee will be used to offset the cost of supplies and other program expenses. The procedure for collecting the money is:

- A. Participant should pay the fee before he/she is permitted to compete unless he/she has successfully completed a DPS 61 fee waiver.
- B. In those sports where it is necessary to cut, only those students who make the squad will be expected to pay.

POLICY FOR STUDENT-ATHLETE PARTICIPATION AND GAME DAY ATTENDANCE

Student-athletes must be in attendance at least one-half day on the day of an activity to be eligible to participate that day. The school administration will make all eligibility decisions concerning any unusual circumstances.

STANDARDS AND AWARDS FOR INTERSCHOLASTIC SPORTS

In addition to meeting the minimum standards for earning awards as outlined below, a participant must complete the season in good standing as determined by the athletic director and the coach of that particular sport. In case of injury, the participant's record shall count only for those games in which he/she was physically able to participate.

The criteria for earning awards in the various sports are:

Football

A player must participate in one-third or more of the total number of quarters.

Basketball

A player must participate in one-third or more of the total number of quarters.

Baseball and Softball

A player shall participate in at least one-half of the games; a pitcher in one-third of the games.

Bowling

A player must bowl in one-third of the games bowled by the team.

Soccer

A participant must play in at least one-third of the quarters which the team plays.

Volleyball

A varsity player must participate in one-third of all games played; a junior varsity player in one-third of all games that are played.

Cross Country, Golf, Tennis, Track, Wrestling

A player shall receive one point for participation in a meet or match or two points if the player wins his match, but not on a forfeit, or if he scores points in a track meet.

Freshman and sophomore awards in all sports shall be determined in the same way as varsity awards. Participants who have finished the season in good standing and do not qualify for a plaque or certificate medallion shall be given a certificate of appreciation.

Standards for Cheerleaders

Awards shall be governed by the Cheerleader's Constitution.

Special Awards

Patches (4 inches) may be purchased for state championship team members or for individuals who win a state championship.

Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:	
<ul style="list-style-type: none">• Headaches• “Pressure in head”• Nausea or vomiting• Neck pain• Balance problems or dizziness• Blurred, double, or fuzzy vision• Sensitivity to light or noise• Feeling sluggish or slowed down• Feeling foggy or groggy• Drowsiness• Change in sleep patterns	<ul style="list-style-type: none">• Amnesia• “Don’t feel right”• Fatigue or low energy• Sadness• Nervousness or anxiety• Irritability• More emotional• Confusion• Concentration or memory problems (forgetting game plays)• Repeating the same question/comment

Signs observed by teammates, parents and coaches include:
<ul style="list-style-type: none">• Appears dazed• Vacant facial expression• Confused about assignment• Forgets plays• Is unsure of game, score, or opponent• Moves clumsily or displays incoordination• Answers questions slowly• Slurred speech• Shows behavior or personality changes• Can’t recall events prior to hit• Can’t recall events after hit• Seizures or convulsions• Any change in typical behavior or personality• Loses consciousness

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion shall be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often fail to report symptoms of injuries. Concussions are no different. As a result, education of administrators, coaches, parents and students is the key to student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion shall be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance and adherence to the School District's return-to-play and return-to-learn protocols. Close observation of the athlete shall continue for several hours. IHSA Policy requires athletes to provide their school with written clearance from either a physician licensed to practice medicine in all its branches or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches prior to returning to play or practice following a concussion or after being removed from an interscholastic contest due to a possible head injury or concussion and not cleared to return to that same contest. In accordance with state law, all IHSA member schools are required to follow this policy. Per the HSHS St. Mary's Athletic Trainer agreement, the District shall adhere to the IHSA Protocol for Implementation of NFHS Sports Playing Rule for Concussions.

You should also inform your child's coach if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

IHSA PERFORMANCE-ENHANCING SUBSTANCE TESTING POLICY

In 2008, the IHSA Board of Directors established the association's Performance-Enhancing Substance (PES) Testing Program. Any student who participates in an IHSA-approved or sanctioned athletic event is subject to PES testing. A full copy of the testing program and other related resources can be accessed on the IHSA Sports Medicine website. Additionally, links to the PES Policy and the association's Banned Drug classes are listed below. School administrators are able to access the necessary resources used for program implementation in the IHSA Schools Center.

IHSA STEROID TESTING POLICY CONSENT TO RANDOM TESTING

As a prerequisite to participation in IHSA athletic activities, we agree that I/our student will not use performance-enhancing substances as defined in the IHSA Performance-Enhancing Substance Testing Program Protocol. We have reviewed the policy and understand that I/our student may be asked to submit to testing for the presence of performance-enhancing substances in my/our student's body either during IHSA state series events or during the school day, and I/our student do/does hereby agree to submit to such testing and analysis by a certified laboratory. Date: June 10, 2025	Subject: Contract Renewal with Cole Counseling Services for 2025-2026 and 2026-2027 School Years
Initiated By: Monica Wilks, Director of Human Resources	Attachments: Contract Proposal for Cole Counseling Services
Reviewed By: Dr. Rochelle Clark, Superintendent	

BACKGROUND INFORMATION:

The Administration recognizes that providing additional support for mental health and wellness to employees is essential and a key component to staff retention.

CURRENT CONSIDERATIONS:

Administration originally recommended a pilot with Cole Counseling Services as a support system for Mental Health Wellness during the 2020-2021 school year. The pilot began at Stephen Decatur Middle School and Hope Academy. Services expanded during the 2021-2022, 2022-2023, 2023-2024 and 2024-2025 school years.

Based on positive feedback and the capacity of the wellness team, administration is recommending an extension of support through June 2027 for **ALL** DPS schools, and **ALL** staff groups.

FINANCIAL CONSIDERATIONS:

Pending Board approval, the contract with Cole Counseling Services will be funded by the Education Fund in the amounts as follows:

- 2025-2026 - \$341,000
- 2026-2027 - \$380,000

The gradual increase year over year represents an increase in hours based on previous years, from 10-20 hours per week to meet demand. Administrative fees are proposed for a one-time increase in the 2025-2026 contract period only and have not increased for the life of the contract.

STAFF RECOMMENDATION:

The Administration respectfully requests the Board of Education approve the contract with Cole Counseling Services for 2025-2026 and 2026-2027 School Years as presented.

Executive Summary

Cole Counseling Services has proudly partnered with Decatur Public Schools since 2020, offering trauma-informed, confidential, and culturally competent counseling services to educators and staff. This proposal outlines the history, current impact, and strategic vision for the next three years of service. With a deep commitment to flexibility, access, and emotional well-being, Cole Counseling Services seeks to renew and expand our partnership to serve DPS 61 districtwide from 2025 through 2027.

Program Overview

Cole Counseling Services began its partnership with Decatur Public Schools in 2020 following a major merger of several school buildings within the district. This significant structural shift brought with it challenges in building cohesiveness, staff morale, and emotional well-being.

In response, then-HR Director Deanne Hillman, Superintendent Paul Fuago, and DEA President Chrissy Pettit collaborated to pilot a mental health initiative. They invited trusted, community-based mental health professionals to offer confidential counseling services to teachers and staff in the merged schools. **Cole Counseling Services ultimately answered the call to lead the initiative, stepping in as the primary provider to support district staff through the transition.**

What began as a pilot program quickly revealed a much greater need. Within one year, the overwhelming response led to an expansion of the contract—adding an additional 19 hours of service time.

Today, Cole Counseling Services provides **74 hours of therapy weekly** and currently supports **165 staff members per week** across multiple buildings in the district.

Led by CEO of Cole Counseling Services, TyKyna Cole, the DPS Wellness team brings a **trauma-informed, grassroots approach** to their mental health support. All clinicians are trained in trauma recovery and cultural sensitivity. Services are offered **both in-person and virtually**, with therapy available:

- At Cole Counseling’s private practice location.
- At our therapists' private practice locations.
- Within district buildings, allowing staff to access care without disruption to their school day.

We pride ourselves on being **flexible and responsive** to the unique needs of each building and educator. Once initial contact is made by the district staff, they will receive an appointment within **24 hours**—a turnaround time that speaks to the program’s commitment to availability and care.

In addition to ongoing therapy, **TyKyna Cole and, at times, a second DPS Wellness therapist, provide crisis intervention and on-site building support.** This includes:

- Debriefing after critical incidents.
- Emotional processing and grief support.
- Team-building and morale-focused activities.

One of the program's greatest strengths is the **strict confidentiality it upholds**, giving teachers and staff a safe, trusted space to process challenges without fear of stigma or disclosure.

Cole Counseling Services has been more than a contracted provider—we've become a **consistent and compassionate partner** to the educators of DPS 61. We meet them where they are—physically, emotionally, and professionally—and help them heal, reset, and keep showing up for their students.

2-Year Contract Proposal (2025–2027)

To ensure continuity, meet rising demand, and strategically grow, Cole Counseling Services proposes the following adjustments to the DPS 61 contract:

1. **2-Year Contract Term** Extend our contract from one renewal year to two to create long-term consistency and ease of planning.
2. **Districtwide Access** Expand services to include all buildings **and** include school administrators and leadership teams in service access.

Billable Crisis Response & Building Support Allocate funds in budget for: Critical incident debriefings, in-building wellness days and emotional processing sessions following traumatic events.

Current Budget

- Covers 71 hours a week of therapy across 11 schools, plus \$357 weekly for administrative expenses.
- Crisis response and building support hours are not currently covered, though still provided.

Proposed 2025–2027 Contract Terms:

2025–2026

- Contract period: July 1, 2025 – June 30, 2026
- Services for 80–90 staff per week
- Team of 14 therapists
- All district access, including administration
- Clinical Services: \$312,000
- Administrative Costs: \$29,000
- **Total: \$341,000**

2026–2027

- Contract period: July 1, 2026 – June 30, 2027
- Services for 90–100 staff per week

- Team of 14 therapists, with additional hires as needed
 - All district access, including administration
 - Clinical Services: \$351,000
 - Administrative Costs: \$29,000
- Total: \$380,000**

Note: In previous years, therapy hours have increased by 10–20 per week to meet demand. This proposal anticipates a gradual 10-hour weekly increase per year over the next three years.

Administrative fees are proposed for a one-time increase in the 2025–2026 contract period only and have not increased for the life of this contract.

Closing Statement

Cole Counseling Services is proud to be a stable and trusted partner in the well-being of Decatur Public Schools staff. Our clinicians are deeply invested in this community. We see your educators not only as professionals, but as people—deserving of safe space, healing, and support. With this proposal, we affirm our readiness to deepen our work together and to grow with the district as it continues to evolve.

We welcome the opportunity to meet with district leadership, present to the Board on June 10, and finalize this next chapter in our powerful partnership.

Date: June 10, 2025	Subject: Community Solar Agreement with Dimension Energy
Initiated By: Dr. Mike Curry, Chief Operations Officer; Floyd Bolt, Interim Director of Buildings and Grounds	Attachments: Dimension Energy Agreement
Reviewed By: Dr. Rochelle Clark, Superintendent	

BACKGROUND INFORMATION:

Community solar programs allow utility customers to tap into solar energy and save on their annual electricity cost in lieu of installing solar panels. Community solar customers submit their utility bills and based on relative demand, receive a certain allocation of solar energy generation from a local array. Once subscribed, customers receive credits on their utility bills for the energy generated by the solar farms. Community solar will allow for residents and commercial entities to receive the benefits of solar without the upfront cost and complexity involved in building onsite systems.

CURRENT CONSIDERATIONS:

The terms of the agreement include a five-year term with an option to renew. The projected savings through this guaranteed 10% savings is estimated at \$79,000 per year over five years for an estimated \$395,000 in total savings on electricity costs.

FINANCIAL CONSIDERATIONS:

There is no cost to the district.

STAFF RECOMMENDATION:

The Administration respectfully requests the Board of Education approve the Community Solar Agreement with Dimension Energy as presented.

Community Solar Subscription Agreement

This Community Solar Subscription Agreement (this “**Agreement**”) sets forth the terms and conditions under which [Customer Name], a [insert corporation type], and [Project Co], a limited liability company, are entering into an Agreement for Customer to subscribe to a portion of the electric generating capacity of a photovoltaic community renewable solar generation facility (the “**Facility**”) for the Term of this Agreement in order to receive Bill Credits (“**Subscription**”). In this Agreement, [Customer Name] may be also referred to as “**Subscriber**” or “**Customer**”, and [Project Co] may also be referred to as “**Company**”. Customer and the Company shall collectively be referred to herein as the “**Parties**” and individually as a “**Party**.”

1. Introduction.

This Agreement, with the Effective Date as of the date of the last signature, is a legally binding agreement between the Parties (and their permitted successors and assigns). This Agreement and the Facility listed in Appendix A are subject to the Illinois laws, rules, and utility tariffs enabling community solar and bill crediting for Subscribers (“**Community Solar Laws**”), and, if applicable and as listed on Appendix A, the Illinois Shines Community Solar Program (the “**Incentive Program**”). The Community Solar Laws and Incentive Program (if applicable) are collectively referred to herein as the “**Community Solar Program**.”

If the Facility is participating in the Incentive Program as noted in Exhibit A, the additional requirements of Appendix B shall apply. The required disclosure form is included as Appendix E (“**Disclosure Form**”) and will be executed prior to either (i) this Subscription Agreement or (ii) a later assignment of Customer or its Customer Accounts to a different Facility participating in the Incentive Program, as applicable and as required by Community Solar Laws. Customer acknowledges that the Disclosure Form included as Appendix E may change as required by Community Solar Law or Incentive Program Requirements from time to time, and, if a Disclosure Form is to be executed at a later date, the Disclosure Form will be updated to be the form in effect at the time of its execution. In the event of any inconsistency between an executed Disclosure Form and the terms of this Agreement, the terms of this Agreement will prevail.

2. General Information.

- a. As provided by the Community Solar Program and as further explained in Sections 4 and 6, Company will allocate Customer’s accounts listed on Appendix A (“**Customer Accounts**”) to the Facility listed in Appendix A, and Utility will allocate Bill Credits to Customer’s bill based on actual solar energy generation from the Facility, the Subscription Size of each Customer Account, and the value on a kWh basis as determined by the Utility (“**Bill Credits**”). “**Utility**” means the local electric distribution company listed under Appendix A. “**Subscription Size**” means a percentage of the estimated Facility Solar Output to be allocated to the Customer Accounts, as determined by Company based on factors such as Customer’s historical usage and available capacity on the Facility. The estimated Subscription Size for each Customer Account is set forth on Appendix A. The Subscription Size may vary from month to month.
- b. In exchange for the Customer receiving Bill Credits from the Utility, Company will charge Customer a fixed percentage of the Bill Credits it receives (“**the Subscription Fee**”) as set forth in Section 7(a). This arrangement will result in an overall reduction in Customer’s annualized electricity costs for the Customer Accounts.
- c. As described in this Agreement, Company may update Appendix A from time to time upon notice to Customer. Any updated Appendix A shall be added to this Agreement without the need for additional consent or signature of the Parties.
- d. Company may, at its option, engage a third-party service provider to manage its obligations and communications with Customer, Utility, or third parties such as governmental entities pursuant to this Agreement (“**Subscription Manager**”). Any notice, consent or other communication from such Subscription Manager shall be as effective as if provided directly by Company. As of the Effective Date, Company’s Subscription Manager is Ampion, Inc. (“**Ampion**”), and Company or Subscription Manager shall

provide notice if the third-party service provider changes during the Term of this Agreement. Subscription Manager's contact information is provided in Section 14.

3. **Term.**

- a. **Term.** The term of this Agreement shall commence on the Effective Date and continue for five (5) years (the "**Initial Term**"). This Agreement will automatically renew for successive terms of five (5) years (each, a "**Renewal Term**") unless either Party decides that it does not wish to renew this Agreement before the expiration of the Initial Term or any Renewal Term, as applicable, by notifying the other Party in writing at least one hundred eighty (180) days before the completion of the Initial Term or Renewal Term, as applicable. The Company shall provide notice to Customer two hundred twenty (220) days before the end of each renewal term. The Initial Term and any Renewal Term are collectively referred to as the "**Term**." Notwithstanding the foregoing, this Agreement shall terminate after twenty-five (25) years from the Facility's Commercial Operations Date unless earlier terminated in accordance with this Agreement, in which case the Term shall expire on the effective date of such early termination.

4. **Allocation of Community Solar Credits**

- a. **Initial Accrual of Bill Credits.** The Utility shall begin allocating Bill Credits to Customer upon the date by which all of the following shall have occurred (the "**Eligibility Date**"): (1) the Commercial Operations Date (as defined below); (2) the Utility has added Customer to the Utility's Bill Credit allocation records in order for the Utility to allocate Bill Credits generated by the Facility; and (3) Customer has been approved by the Utility (see Section 5(b)).
- b. **Initial assignment to Facility.** Company will initially assign Customer Accounts to the Facility pursuant to the terms of the Community Solar Program. Company has constructed or intends to construct the Facility at the location set forth in Appendix A. Company will interconnect the Facility with the Utility pursuant to the terms of the applicable Utility tariff, interconnection agreement, the Community Solar Program, or other agreements required to be executed with the Utility. Once the Facility begins to generate electric energy on a commercial basis (the "**Commercial Operations Date**" or "**COD**"), Company shall provide Customer with an updated Appendix A to the extent any of the information in Appendix A has changed.
- c. **Reassignment to Different Facility.** Company reserves the right to reassign Customer or Customer Accounts to a different Facility owned by an affiliate of Company which is participating in a Community Solar Program at any time by providing notice to Customer, including any change in Company contact information and updates to Appendix A. In the event of a reassignment to another Facility, Customer agrees to execute an Agreement in substantially the same form as this Agreement, plus any Disclosure Form that may be required if the Facility is participating in the Incentive Program. The key terms of this Agreement will not change, including the Subscription Fee.

5. **Acknowledgments Regarding the Community Solar Program.**

- a. **Incentive Program Requirements.** For a Facility participating in the Incentive Program (as noted in Exhibit A), the Incentive Program imposes certain requirements and limits on Customer participation therein (such limits, the "**Program Requirement**") as further described in Appendix B and incorporated into this Agreement.
- b. **Allocation of Bill Credits by Utility.** Customer's subscription is contingent upon and subject to the Utility's acceptance of Customer's Accounts and allocation of Bill Credits to Customer's Accounts. "**Customer Account**" means Customer's account with the Utility for a location served by the Utility. During the Term of this Agreement, if for any reason the Utility refuses to allocate a portion or all of the Bill Credits to a Customer Account on a permanent basis, Company may remove the Customer Account from Appendix A, and Company shall provide Customer with an updated Appendix A. If the Utility refuses to allocate the Bill Credits all of Customer Accounts on a permanent basis, Company shall notify Customer, and either Party may terminate this Agreement without liability by written notice to the other Party. Notwithstanding anything to the contrary, Customer's termination right in this Section 5(b) does not apply to the extent that the reason that the Utility

refuses to allocate Bill Credits to Customer is a result of Customer failing to pay Customer's Utility bill or Customer's breach of this Agreement.

- c. Title; Environmental Attributes and Tax Incentives Excluded. Company shall own the Facility, and Customer shall not be entitled to any ownership interest in the Facility. Customer acknowledges and agrees that Customer's Subscription does not include any Environmental Attributes associated with the Facility or energy generated by the Facility, and Customer agrees that Customer will not claim any Environmental Attributes. "**Environmental Attributes**" means any credit, benefit, reduction, offset, financial incentive, tax credit, or other beneficial allowance that is in effect as of the Effective Date or may come into effect in the future, including, to the extent applicable and without limitation, (i) all environmental and renewable energy attributes and credits, "**Renewable Energy Credits**," of any kind and nature resulting from or associated with the Facility and/or its electricity generation, (ii) government financial incentives, (iii) greenhouse gas offsets, (iv) investment tax credits (including any grants or payments in lieu thereof), tax deductions, incentives, or depreciation allowances established under any federal or state law, and (v) other allowances howsoever named or referred to, with respect to any and all fuel, emissions, air quality, or other environmental characteristics, resulting from the use of solar energy generation or the avoidance of the emission of any gas, chemical or other substance into the air, soil, or water attributable to the Facility and/or its electricity generation.

6. Bill Credits.

- a. Determination of Solar Output. The measurement of the Facility Solar Output shall be based upon readings at the Utility meter at the Facility (the "**Utility Meter**"). Each month during the Term of this Agreement, the Utility will record the amount of solar electricity generated that month at the Facility and delivered to the Utility Meter (the "**Facility Solar Output**"). Commencing on the Eligibility Date, Company will periodically invoice Customer for Bill Credits based on the Facility Solar Output and the application of Bill Credits by Utility ("**Billing Period**").
- b. Calculation of Bill Credits. Bill Credits are calculated solely by the Utility based upon the terms and conditions of the Community Solar Program. Customer acknowledges and agrees that Company's sole obligation is to request and use commercially reasonable efforts to require the Utility to deliver Bill Credits. Company will provide the Utility with Customer's account information, Facility Solar Output, and other information required so that the Utility can post Bill Credits to Customer's Utility bill pursuant to the terms of the Community Solar Program. The value of the Bill Credits will depend on the Utility Price to Compare, which is defined in the applicable utility tariff and may be revised from time to time by the Utility based upon variations in the Utility's rate components. Customer understands that (i) the Bill Credits received by Customer for a particular month will be reflected on Customer's Utility bill as a monetary credit amount and not as an electricity quantity; (ii) such Bill Credits will be reflected on Customer's monthly bill according to the Utility's billing cycle; and (iii) there may be a delay of 1-2 Billing Periods between the month in which the solar energy was generated and the month in which the Bill Credits appear on Customer's Utility bill.
- c. Taxes. Customer shall be responsible to either pay or reimburse the Company for any applicable sales, use, or other taxes or levies imposed with respect to Bill Credits.

7. Payment

- a. Subscription Fee. The Subscription Fee for each month is equal to ninety percent (90%) of the Bill Credits allocated by Utility to the Customer.
- b. Dual Billing. Customer Accounts initially shall be enrolled in Dual Billing. "**Dual Billing**" means that Company shall invoice Customer directly for the Subscription Fee each month for Bill Credits allocated by Utility to Customer. Company's first invoice under this agreement shall be for the Bill Credits allocated to Customer from the Facility Solar Output in the first month following COD. Customer shall pay all undisputed amounts due hereunder within ten (10) business days following receipt of an invoice from Company. Customer shall make all payments under this Agreement by electronic funds transfer in immediately available funds to the account designated by Company, as updated from time to time by Company or Company's Subscription Manager. Customer acknowledges and agrees that: (i) Customer remains responsible for timely payment of any bills that it receives from Utility; and (ii) Customer shall neither receive nor be entitled to any Bill Credits associated with

energy generated prior to the applicable Commercial Operation Date.

- c. Utility Consolidated Billing. Customer and Company may agree to enroll some or all of the Customer Accounts in Utility Consolidated Billing at a future date. If the Parties agree to Utility Consolidated Billing, then Company will update Appendix A accordingly. If a Customer Account is enrolled in Utility Consolidated Billing, Customer will receive a monthly credit from the Utility on Customer's monthly Utility bill(s) in an amount which, net of the Subscription Fee, is equal to ten percent (10%) of the total Bill Credits allocated to Customer by the Utility for such month ("**Utility Consolidated Billing**"). Company acknowledges and agrees that under Utility Consolidated Billing: (i) Customer is not responsible for any direct payment to Company for Bill Credits, (ii) Company will not issue a monthly invoice to Customer and instead all amounts owed to Company under the Program will be paid to Company directly by the Utility; (iii) Utility may assess a service fee on Subscriber's Utility bill. For example, if the value of Subscriber's Bill Credits in a given month is One Hundred Dollars (\$100), Customer's Utility bill for such month will reflect a net credit of ten dollars (\$10), and the Utility will be responsible for payment directly to the Company of the Subscription Fee of ninety dollars (\$90) instead of Customer receiving one hundred dollars (\$100) in Bill Credits on its Utility bill, and Customer receiving a separate invoice from Company for the Subscription Fee of ninety dollars (\$90) to be paid by Customer directly to Company.
- d. Annual Report. For each Customer Account listed on Appendix A, following a Facility's Commercial Operations Date, Company shall provide Customer with an annual report detailing the total Bill Credits and total net savings Customer received on Customer's electricity costs for the prior year. Such annual report will be provided to Customer prior to March 31st for the prior year.

8. Customer Information.

Within ten (10) days of any request by the Utility or Company, Customer will provide to the Utility or Company all applications, documentation and information required by the Utility to evaluate Customer's qualification and eligibility for participation in the Community Solar Program. Customer further agrees to execute the Consent to Disclose Utility Customer Data set forth in Appendix D. For more details on Company's and Subscription Manager's use of Customer Information, please refer to the Privacy Policy here: <https://ampion.net/privacy-policy>, which may be updated from time to time as provided in the Privacy Policy or upon notice from Company. Customer also agrees to provide financial statements and other relevant information to the extent Company requests this information in connection with its financing of the Facility.

Company may use Customer's information provided in Appendix A for reporting purposes to governmental entities and as outlined in Appendix D. To help Company carry out the terms of this Agreement and interact with the Utility in regard to requirements of the Program, Customer agrees that Company has permission to submit to the Utility and/or obtain from the Utility Customer's information listed in Appendix A as well as Customer's usage and Utility billing information.

9. Subscription Transfers.

- a. Change in Location.
 - i. Advance Notice. Customer agrees to provide Company with one hundred eighty (180) days advance notice if Customer is moving, intends to close any Customer Accounts, or of any other change which may cause Customer to not be the Utility's customer at a Utility Service Location listed in Appendix A.
 - ii. Replacement Eligible Service Location within same Utility Service Territory. Customer may substitute a new Utility Service Location(s) for an existing Utility Service Location listed in Appendix A if: (i) the billing meter at the new premise(s) is within the same service territory as the Utility serving the associated Facility, (ii) Customer is established as the customer of record for electric service with the Utility at the new premises, (iii) the Utility account(s) at the new location qualifies as the same customer type under the applicable Community Solar Program rules, and (iv) the new Utility Service Location(s) has or is expected to have annual electricity usage comparable to the Utility Service Location being replaced. Customer shall take all steps and provide all information required by the Utility under the Community Solar Program to substitute the new service location as a Utility Service Location under this Agreement, and this Agreement

shall continue in effect. After the Utility has verified eligibility and accepted the Customer Accounts, Customer will receive Bill Credits with respect to the Customer Account at the new Utility Service Location in accordance with the terms of this Agreement, and Company will update Appendix A accordingly. Customer acknowledges that Utility may take several months to process the transfer, and Customer shall pay the Subscription Fee for any Bill Credits allocated to the former Utility Service Location until the Utility has processed the transfer of the Utility Service Location.

- iii. Subscription Termination for Termination of Utility Service. Provided that Customer has provided Company the required notice pursuant to Section 9(a)(i), if Customer ceases to be a Utility customer for electric service at a Utility Service Location and (i) no new Utility Service Location is eligible under the conditions outlined in Section 9(a)(ii) above, and (ii) no transfer to a replacement customer has occurred pursuant to Section 9(b), then Customer may terminate this Agreement pursuant to Section 12 with respect to the Customer Accounts at that Utility Service Location.
- b. Transfer to a Replacement Customer. Customer may transfer all or part of its Subscription with respect to specific Customer Accounts to a replacement customer as long as (i) such transfer is made in compliance with all terms and conditions of the applicable Community Solar Program; (ii) the replacement customer is eligible under the applicable Community Solar Program; (iii) Customer has no outstanding obligations in connection with its Customer Account or payments due under this Agreement; (iv) such replacement customer qualifies as the same customer type under the Community Solar Program rules, (v) such replacement customer has or is expected to have annual electricity usage comparable to the to the Customer Account being replaced transferred; and (v) Customer obtains Company's prior written consent, which consent may be withheld in Company's sole discretion. As a condition of any such transfer, Customer and the proposed transferee shall provide Company with all requested documentation and information related to the transfer, and confirmation of qualification by the Utility to participate in the Program. Upon Company's execution of a new agreement with the replacement customer (including a new Disclosure Form, if applicable), this Agreement will terminate with respect to any Customer Accounts whose capacity has been transferred; provided, however, that Customer acknowledges that Utility may take several months to process the transfer, and Customer shall pay the Subscription Fee for any Bill Credits allocated to the Customer Accounts until the Utility has processed the transfer.

10. Customer's General Agreements.

In connection with this Agreement Customer represents, covenants, and agrees that:

- a. The Customer Information provided in Appendix A is accurate and Customer is eligible to participate in the Program.
- b. Customer has the full right and authority to enter into, execute, and perform its obligations under this Agreement.
- c. Customer agrees to make no claim against Company or its affiliates or assigns for amounts which may be payable to Company from the Utility under the Community Solar Program or in connection with this Agreement.
- d. Customer has not granted or placed or allowed others to place any liens, security interests, or other encumbrances on the Bill Credits, and Customer will not do so during the Term of this Agreement.
- e. Customer has not and will not enroll any of the Customer Accounts with any other community solar facility other than a facility owned by Company or an Affiliate.
- f. This Agreement, the Subscription, and the Bill Credits are not, and are not intended to be, a security under federal or state securities laws.

11. Termination.

- a. Termination of Community Solar Program. In the event the Utility ceases to offer the applicable Community Solar Program or a comparable substitute, or in the event that there is a change in the Community Solar

Program such that Customer is no longer eligible to participate in the Community Solar Program, then Company may terminate this Agreement with respect to affected Customer Accounts after Customer ceases to receive Bill Credits. If there are no remaining eligible Customer Accounts following such terminations, then either Party may terminate this Agreement without liability.

b. Termination Based on Company Default.

- i. Customer may terminate this Agreement with respect to affected Customer Accounts if Company fails to perform any of its material obligations with respect to those Accounts pursuant to this Agreement and such failure continues for more than sixty (60) days after written notice from Customer of such failure.
- ii. Customer may terminate this Agreement with respect to all Customer Accounts if (A) any of the representations made by Company in this Agreement shall be or become inaccurate in any material respect; (B) Company fails to perform a material obligation with respect to all of the Customer Accounts pursuant to this Agreement and such failure continues for more than sixty (60) days after written notice from Customer of such failure; or (C) Company becomes insolvent, files for bankruptcy, or makes an assignment for the benefit of Company's creditors, or an involuntary bankruptcy petition is filed against Company and is not dismissed within sixty (60) days.
- iii. To terminate this Agreement in accordance with this Section 11(b), Customer may not have any uncured material default at the time of such termination. For purposes of clarity, a Utility failure to properly allocate Bill Credits shall not be deemed a failure of Company.
- iv. Customer acknowledges that any estoppel or consent executed by Customer with Company's lender may contain additional terms and conditions that may affect Customer's right to terminate this Agreement.

c. Termination Based on Customer's Default. Customer will be in material default of this Agreement, and Company may terminate this Agreement for Customer's default if any of the following events occur:

- i. Customer fails to make any payment when due under this Agreement and such failure continues for a period of thirty (30) days after written notice from Company;
- ii. Any of the representations made by Customer in this Agreement shall be or become inaccurate in any material respect, or Customer fails to fulfill any of Customer's other material obligations pursuant to this Agreement, and such failure continues for more than thirty (30) days after written notice to Customer of such failure;
- iii. Customer's Utility Account is closed without providing Company notice as set forth in Section 9(a)(i) of this Agreement, or Customer assigns or transfers this Agreement in violation of the terms of this Agreement;
- iv. Customer becomes insolvent, files for bankruptcy, or makes an assignment for the benefit of Customer's creditors, or an involuntary bankruptcy petition is filed against Customer and is not dismissed within sixty (60) days.

d. Termination Prior to Operation. If Company has not achieved the Commercial Operations Date for the Facility within twenty four (24) months after the Effective Date and if Company has not reassigned the Customer Accounts to another Facility pursuant to Section 4(c), either Party may terminate this Agreement without penalty prior to the Commercial Operations Date. Such twenty four (24) month period shall be extended on a day-to-day basis for any Force Majeure or action or any inaction on the part of the Customer.

e. Force Majeure. "**Force Majeure**" means any event or circumstance not within the reasonable control of the affected Party which precludes such Party from carrying out, in whole or in part, its obligations under this Agreement. If a Force Majeure event occurs, the affected Party shall not be deemed to be in default during the Force Majeure event, provided that: (i) the affected Party gives the other Party written notice within thirty (30) days describing the occurrence and the anticipated period of delay, and (ii) the affected Party uses commercially reasonable efforts to remedy the Force Majeure. No obligations of the Party which were to be performed prior to the Force Majeure shall be excused. If any Force Majeure lasts longer 180 days, and the affected Party

determines in good faith that such Force Majeure substantially prevents, hinders or delays the Company's performance of any of its obligations with respect to specific Customer Accounts and if Company has not reassigned the affected Customer Account to another facility pursuant to Section 4(c), then either Party may upon written notice terminate the Agreement with respect to those Customer Accounts without further liability, except that neither Party shall be relieved from any payment obligations arising under this Agreement prior to the Force Majeure.

- f. Effect of Termination. Upon termination of this Agreement for any reason with respect to any or all Customer Accounts, (i) Company shall notify the Utility to remove the affected Customer Accounts from the Community Solar Program on the next update to the Utility, and (ii) Company shall have no further obligation to deliver, and Customer shall have no further obligation to subscribe to, any Bill Credits from Company for the affected Customer Accounts, provided, however, Customer shall pay Company the Subscription Fee with respect to any Bill Credits that have or may continue to be allocated to Customer by the Utility until the Utility processes the removal of the Customer Accounts. In connection with the foregoing sentence, both Parties agree to promptly execute any documents as may be reasonably required by the Utility. Following any termination of individual Customer Accounts where the Agreement is not terminated, the Company shall provide Customer with an updated Appendix A. Subject to the limitations set forth in this Agreement, each Party reserves and shall have all rights and remedies available to it at law or in equity with respect to the performance or non-performance of the other Party hereto under this Agreement.

12. Early Termination by Customer.

Following COD, Customer may elect to terminate this Agreement in whole, or in part with respect to certain Customer Accounts, for any reason upon one hundred eighty (180) days notice to Company. In the event this Agreement is terminated by Customer, and the capacity being terminated is not transferred to a replacement location or to a replacement customer in accordance with Section 9, then Company shall use commercially reasonable efforts to find one or more new customers, who meet all of the qualifications of in Section 9(b), to subscribe to a comparable amount of Bill Credits subscribed to the Customer Accounts being terminated. Upon the termination becoming effective, if Company has been unable to find a new replacement customer or customers for the terminated Customer Accounts, then Customer shall pay a termination fee of \$[0.03/kWh] based on the Subscription Size of the terminated Customer Accounts ("**Termination Fee**").¹

13. Dispute Resolution.

- a. Complaints. For any concerns or complaints regarding performance of this Agreement, please contact Company's Subscription Manager at (800) 277-3631. To notify Company of a breach or default under this Agreement, notice should be provided to Company as provided in Section 14. Company or Company's Subscription Manager shall endeavor to acknowledge such complaint within two (2) days of receipt and respond within fourteen (14) days thereof whether in writing or by phone call. Company shall keep a record of all customer concerns or complaints.
- b. Dispute Resolution. Each Party agrees that to expedite and control the costs of disputes, the resolution of any dispute relating to this Agreement ("**Dispute**") will be resolved according to the following procedures:
- i. Unless otherwise agreed in writing, the Parties will continue to perform each of their respective obligations under this Agreement during the course of the resolution of the Dispute;
 - ii. Each Party will first try to informally resolve any Dispute through management discussions. Accordingly, neither Party will start a formal proceeding for at least thirty (30) days after notifying the other in writing of the Dispute. Each Party agrees to send its notice of Dispute to the address set forth in Section 14 below; and
 - iii. If the dispute resolution process set forth in subsection (ii) above does not result in a resolution of the

dispute, the Parties shall be free to seek any available relief in federal or state courts located in the State of Illinois, and, to the fullest extent permitted by applicable law, the Parties hereby unequivocally waive the right to a jury trial in any matter related to this Agreement.

- c. Choice of Law. This Agreement will be governed by and construed in accordance with the laws of the State of Illinois without regard to principles of conflicts of law.

14. Notices.

NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY ANY AUTHORIZED REPRESENTATIVE OF THE COMPANY OR ITS THIRD-PARTY REPRESENTATIVE SHALL CREATE A WARRANTY. THESE LIMITATIONS CONSTITUTE AN ESSENTIAL PART OF THIS AGREEMENT.

- c. LIMITATION ON DAMAGES: Notwithstanding any other provision of this Agreement to the contrary, the entire liability of either Party to the other for any and all claims of any kind arising from or relating to this Agreement, including any causes of action in contract, tort, strict liability or otherwise, will be limited to direct actual damages only, subject in all cases to an affirmative obligation of a Party to exercise commercially reasonable efforts to mitigate its damages. Notwithstanding the foregoing, neither Party's liability to the other will in any event exceed the amount of the Termination Fee set forth in Section 12 of this Agreement that would be applicable if all Customer Accounts were terminated.

WITHOUT LIMITING THE FOREGOING, IN NO EVENT WILL EITHER PARTY BE LIABLE TO THE OTHER PARTY FOR ANY CONSEQUENTIAL, EXEMPLARY, SPECIAL, INCIDENTAL OR PUNITIVE DAMAGES, INCLUDING, WITHOUT LIMITATION, LOST OPPORTUNITIES OR LOST PROFITS.

- d. Assignment. Customer may not assign this Agreement nor assign or transfer the Bill Credits except as provided in Section 9. Upon written notice to Customer, Company may assign this Agreement, or any of its rights, duties, or obligations under this Agreement, to an affiliate which owns a Facility and is able to perform Company's obligations under this Agreement, whether by contract, change of control, operation of law, collateral assignment or otherwise,. Additionally, Company may in its sole discretion, from time to time, transfer Customer or Customer Accounts to another Facility, as described in Section 4 of this Agreement. - h. No Partnership. Nothing contained in this Agreement will constitute either Party to this Agreement as a joint venturer, employee, or partner of the other, or render either Party to this Agreement liable for any debts, obligations, acts, omissions, representations, or contracts of the other, including without limitation Customer's obligations to the Utility for electric service.
- i. Amendments; Binding Effect; Waiver. Except as otherwise permitted in this Agreement, this Agreement may

Appendix B

Incentive Program Requirements.

1. *This Appendix B applies to Customer Accounts noted as participating in the Incentive Program on Appendix A. This Appendix outlines various additional requirements under the Illinois Adjustable Block Program, which is also referred to as the Illinois Shines Program. Program Requirements.*

- a. Incentive Program. The Facility is participating in the Adjustable Block Program. The Adjustable Block Program is defined by Section 1-75(c)(1)(K) and (L) of the Illinois Power Agency Act, the Long-Term Renewable Energy Resources Procurement Plan currently in effect, the REC Contract entered into by the Company or its third party representative such as an Equity Eligible Contractor (as defined by the Incentive Program), and various guidance and other informal documentation from the Illinois Power Agency or its program administrator. (collectively, the “**Incentive Program**”)
- b. Disclosure Requirements. Company must deliver a Disclosure Form, in a form consistent with the Incentive Program’s requirements, to the Subscriber before this Agreement may be signed or new Customer Accounts are allocated to the Incentive Program. The Disclosure Form in effect as of the Effective Date is attached at Appendix E and may be updated from time to time consistent with law and Incentive Program requirements. Customer must sign the Disclosure Form prior to signing this Agreement or the Customer Accounts being allocated to the Incentive Program in a manner that complies with the Incentive Program’s requirements. If Customer requests that it or its Customer Accounts be switched to another Facility, Customer may be moved to a different Facility without executing a new Disclosure Form. All other assignments of this Agreement require Customer to execute a new Disclosure Form.
- c. Assignment to Facility that Participates in the Incentive Program. After the Effective Date, if either the Company assigns Customer or specific Customer Accounts to a Facility or reassigns Customer or specific Customer Accounts to a different Facility, Company will be required to send a follow-up communication (by email or hard-copy mail, at Customer’s choice) with all project details, no later than two (2) weeks after Customer is subscribed to the Facility. For purposes of the follow-up communication, “project details” means: Facility’s location, including the county(ies) in which the Facility is located; the Facility’s name; the Facility’s identification number; size (in kW AC); “Approved Vendor” name; Company Name; and Facility’s status, including completed and producing energy; completed and awaiting final approval to operate; under construction; or construction not yet commenced. In the event that Customer is not assigned to a specific Facility within six months of the execution of this Agreement, the Company shall at that point (and every six months thereafter until Customer is assigned to a project) provide Customer with an update on the status of Customer’s subscription.
- d. Adjustment in Capacity. Company shall have the right to make minor adjustments, up or down, to Customer’s Subscription Size with respect to specific accounts in future Billing Periods without notice to Customer, provided, however, that notice is required if the AC size of a subscription differs by more than the greater of two (2) kW or ten percent (10%) from the Subscription Size noted in Customer’s initial Disclosure Form. To the extent that notice is required, Company shall provide a new Disclosure Form to be executed by Customer before such Subscription Size change becomes effective, unless approval is obtained under the requirements of the Community Solar Program for Customer to execute the new Disclosure Form within thirty (30) days after the Subscription Size change. Subscriber’s Subscription Size shall not otherwise exceed the limit set by the Incentive Program.
- e. Estimate of Subscription Fee. Given the information provided in Appendix A, the monthly Subscription Fee for the Customer Accounts that are in the Incentive Program as of the Effective Date of the Agreement is estimated to be: [\$XXX.XX]. As noted in the Agreement, this amount may vary month to month and as the Customer Accounts on Appendix A change, but the Subscription Fee discount will

remain fixed throughout the Term of the Agreement. The intent of the Agreement is to result in an overall reduction in Customer's annualized electricity costs for the Customer Accounts. As Appendix A is updated, the estimate of the Subscription Fee will be updated in Appendix A.

- f. Security Deposit. A Security Deposit is not required under this Agreement.
- g. Outages. Should an outage occur at the Facility for more than three Business Days, Company shall provide electronic notice to customer detailing the estimated duration of the outage and estimate productions that will be lost due to the outage.
- h. Regulatory Contact Information: The Illinois Commerce Commission may be contacted at: (800) 524-0795 or <https://www.icc.illinois.gov/about/contact-Company>. The Illinois Power Agency may be contacted at: 877-783-1820 or admin@illinoisshines.com.

Date: June 10, 2025	Subject: OpenGate Detection Systems
Initiated By: Dr. Mike Curry, Chief Operations Officer; Valdimir Talley, Safety and Security Administrator	Attachments: OpenGate Quote from Point Security
Reviewed By: Dr. Rochelle Clark, Superintendent	

BACKGROUND INFORMATION:

Decatur Public Schools currently uses metal detection devices at multiple locations. These devices are in place as an added layer of safety and security for our students and staff. The district wishes to add another layer of security at our K-8 buildings, elementary schools, and early childhood center.

CURRENT CONSIDERATIONS:

The OpenGate System will allow for a more efficient pass-through rate than our older devices. The OpenGate Proprietary System, which is widely used at professional sporting events, concerts, and many other large events throughout the country, is designed to focus its technology on specific shapes and metals. Anyone passing through the device will not need to place such objects in a pass-through tub. It should be noted, the sensitivity on any OpenGate device can be set to detect small objects if building administration determines a need exists. Additionally, OpenGate devices are mobile. This will allow for easy relocation to outside events or any large events at any of our schools.

FINANCIAL CONSIDERATIONS:

The cost of up to 15 devices and associated accessories is \$268,516.58. This will be a Tort Immunity Fund purchase.

STAFF RECOMMENDATION:

The Administration respectfully requests the Board of Education approve the purchase of 15 OpenGate Detection Devices as presented.

The termination will be effective on the last day of the Initial or Renewal Term and CLIENT will pay for the Usage-Based Services until the end of the current Initial or Renewal Term regardless of when CLIENT provided notice.

Date: June 10, 2025	Subject: Teacher iPad Upgrade
Initiated By: Maurice Payne, Director of Information Technology	Attachments: Teacher iPad Upgrade – Apple Quote
Reviewed By: Dr. Rochelle Clark, Superintendent	

BACKGROUND INFORMATION:

Starting in 2020, all teaching staff were upgraded to iPad Pro's, a magic keyboard, and Apple Pencil to support virtual learning during the covid shutdown. The per device cost was \$1,430.42. The purchase was made using federal covid funds that are no longer available to purchase replacement iPads.

CURRENT CONSIDERATIONS:

With the new Apple microchip, the computing power of the iPad 11 has exceeded the computing power of the iPad Pro's that teaching staff are currently using. This recommendation would purchase 300 iPad 11's, Logitech keyboard cases, and Logitech stylus. These would be issued to all new teachers starting the 2025-2026 school year. During the 2026-2027 school year, all other teaching staff would be upgraded to iPad 11's.

FINANCIAL CONSIDERATIONS:

The per device cost of each iPad, keyboard case, and stylus is \$483.90.
The total cost of the Teacher iPad Upgrade is \$145,170.00 and would be funded by the FY26 Information Technology budget.

STAFF RECOMMENDATION:
